Dr. Kenneth J. Kornetsky, Associate Member

term expires December 31, 1971

Emile D. Cote, Associate Member

term expires December 31, 1971

ANNUAL REPORT

of the Selectmen, Assessors and Overseers of the Poor

January 1 to December 31, 1971

The Town of Sanford has had a very good year in spite of the mild recession that has been experienced. The Mid-Town Shopping Center has been a great asset to Sanford. The low-income housing project has also work out well.

The Springvale Urban Renewal Project is about to start and we are hoping to have the old shoe shops demolished very soon. This will remove a very dangerous fire hazard in the center of Springvale. By spring, considerable progress is expected.

Building permits are still running ahead of the past year which is a healthy sign.

A Highway Study Committee was appointed by the Selectmen and their objective is to recommend to the Board of Selectmen ways to operate the Highway Department more efficiently. Also an Airport Study Committee was appointed to help the Selectmen develop the Airport to better serve the taxpayers of Sanford. Activity at the Airport has increased tremendously in the last few years and we look forward to it being a lot busier in the future.

This year we will have a revaluation of the Town. This should bring all properties up to 100% of present-day costs and take care of any inequities due to remodeling.

We also will be making up a new Comprehensive Plan for the Town this year. Anyone having any progressive ideas should contact members of the Planning Board as this is a very important document as far as the Town is concerned.

Our new school system is working out very well. It has eliminated pretty much our past crowded conditions making it much easier on the students and teachers.

The Selectmen have put forth every effort to run the Town business as well as possible. A lot of credit must be given to the cooperation between all departments and the time and effort put in by the Warrant Committee and the acceptance of their recommendations by the Town Meeting Body.

Again, our thanks to our clerical staff for their fine cooperation this past year.

We, the Selectmen, are looking forward to another progressive and successful year.

Respectfully submitted,

NORMAN S. HALL

J. RAYMOND NADEAU

PAUL L. GARVIN

Selectmen of Sanford

January 31, 1972

ASSESSMENTS AND VALUATIONS — 1971

PROTECTION OF PERSONS AND PROPERTY
REPORT OF THE BOARD OF ENGINEERS
SANFORD FIRE DEPARTMENT

December 31, 1971

To the Municipal Officers of the Town of Sanford:

The Sanford Fire Department is composed of One (1) Chief, one (1) chief's aid, twenty-four (24) permanent men and sixty-six (66) call men including four (4) assistant chiefs, seven (7) captains and six (6) lieutenants. The permanent men work a three shift system with three men in Springvale Station and five men in the Sanford Station on duty at all times. There is an officer in charge of each station at all times.

Many hours on a voluntary basis have been spent training through the efforts of the officers and the interest of men.

The Department has a Fire Prevention Officer who spends many hours with civic organizations, schools and churches explaining the causes and some of the fire hazards around the home. He also conducts a demonstration explaining reactions of fire, extinguishment, and the need for a fire escape plan for the entire family.

The truck maintenance program is working very well, all the maintenance work was done in the station during 1971. The average age of six first line pieces of equipment is sixteen years old. The ladder truck at the Sanford Station will be replaced by a new (100') ft ladder truck, to be delivered early in 1972. The department purchased 12 new Plectrons for a total of 29 to expand the communication network. Also 2 foam applicators were purchased. The purchase of 600' of 2½ hose and 1500' of 1½ hose was to add to or replace the existing supply. All the Fire Alarm boxes were painted during 1971. And also (1) one mobile radio was replaced. The wiring of the lower floor at the Springvale Station was replaced because of age and condition during 1971 and also the oil burner and updating of wiring on the furnace system was done.

The department has twenty-two (22) men licensed by the State Board of Health and Welfare as ambulance attendants, this being a rule required by the State. These men have attended classes at Maine Medical Center in Portland and Nasson College in Springvale in order to obtain these licenses. The ambulance has made 474 calls with a total

PROTECTION OF PERSONS AND PROPERTY

of 4,525.5 miles during 1971.

The Ladies Auxilliary has been very active and helpful at both stations during 1971.

We wish to express our appreciation for the help and cooperation we have received from all of the town departments and many people who have helped during the year 1971.

SANFORD FIRE DEPARTMENT**

January 1, 1972

To the Municipal Officers of the Town of Sanford, I hereby submit the following report for the year 1971:

The Department responded to 335 calls:

10 Bell Alarms
300 Still Alarms
25 False Bell Alarms
6 Drills

Total feet of hose laid 27,704 ft.
Total pounds of chemical used 75 lbs.
Total feet of ladder raised 2,642 ft.
Mileage apparatus travelled 1,875.1 mi.

Respectfully submitted,

DONALD TURNER, JR.

Clerk, Sanford Station

PROTECTION OF PERSONS AND PROPERTY

REPORT OF THE CLERK OF
SPRINGVALE FIRE DEPARTMENT

January 1, 1972

To the Municipal Officers of the Town of Sanford:

I hereby submit the report of the Springvale Call Department from January 1, 1971 to December 31, 1971.

The Company has responded to 91 alarms consisting of 71 still alarms, 17 bell alarms, and 3 house calls. In addition to these activities, our Company has held six drills.

Damage to Property Endangered	\$21,000

PROTECTION OF PERSONS AND PROPERTY

TO THE MUNICIPAL OFFICERS OF THE TOWN OF SANFORD, MAINE

Gentlemen:

I hereby submit my annual report on the activities of the Sanford Police Department for the year 1971.

The past year again was one of continued progress and improvement for the Sanford Police Department.

Personnel

The following changes in personnel occurred within the department during the year:

Resigned: 3 Patrolmen - 1 Sergeant
Recruited: 4 patrolmen
Promoted: 1 patrolman to sergeant

The department was only fully manned nine (9) months of the year. This was due to resignations and vacancies existing. An additional patrolman was added to the force as a result of a federal grant. The department was fully manned on December 31, 1971.

Training

Mostly all officers within the department attended some sort of outside training program during the year. This was in addition to the continuing in-service training that each officer receives once a month. The following is a breakdown of outside training schools attended by members of the Sanford Police Department:

School	Duration	No. of Officers
Basic Police Academy	6 weeks ea	4
Fingerprinting (Academy)	1 week ea	1
Traffic Investigation	2 weeks ea	4
Identification School	3 days ea	2
Drug Abuse School	2 weeks ea	2
S.M.V.T.I.	College Credits	7
ASAP School	1 week ea	1

Officers attended schools in So. Windham, Maine, Portland, Maine, So. Portland, Maine, Augusta, Maine, University of Maine Campuses in Orono and Portland, Maine.

Officers also attended in-service training classes as follows:

Defensive Tactics
Bomb Threat Calls

PROTECTION OF PERSONS AND PROPERTY

Narcotic Smuggling
Counterfeiting and Forgery
Traffic Accident Investigation and Reporting
Supervisory In-Service Training Classes for supervisory personnel of all law enforcement agencies in York County
The New Laws brought about by the 105th Legislature
Film Programs on various subjects

The department library added new books and subscriptions pertaining to the law enforcement officer.

Firearms qualifications were held for all members during the year.

Equipment

The Sanford Police Department, still one of the best equipped departments in the State of Maine, continued to add much needed equipment to its inventory. Much of the needed equipment was added through the acquisition of federal grants authorized to the department.

A federal grant enabled the department to acquire a fourth cruiser, a station wagon primarily designed to assist the traffic accident investigator. The vehicle came equipped with all the necessary equipment such as lights, siren, rescue equipment, office equipment and other items to help the officer perform his best in the investigation of traffic accidents. As a result of this grant a traffic safety division was established within the department with a primary function of investigating accidents and reporting preventive causes.

Another federal grant enabled the department for a 3-year program to become part of the Alcohol Safety Action Program. This gave the department an additional cruiser, a man, the training and the equipment to primarily enforce the Operating influence of alcoholic laws in the state.

Service and Maintenance

225 traffic signs and 204 sign posts were installed new and on a replacement basis by the sign maintenance section of the department. A total of 307 manhours was devoted to making up the signs and installing during the year.

A total of 284 gallons of paint was used in the traffic markings on the streets in Sanford and Springvale during the year.

Officers during 1971 maintained all equipment within the department and as of December 1971 all equipment owned by the town was in good shape due to the efforts of all members.

PROTECTION OF PERSONS AND PROPERTY

Safety and Education

In 1971, officers assigned to the safety education section of the department visited 10 public and parochial schools in the Sanford and Springvale area. A total of 1,835 children of the elementary grades heard talks and saw films on pedestrian and bike safety. These programs normally ran 45 minutes.

An unaccountable amount of handouts were given to these children

A safety school patrol party was given at the Sanford Memorial Gym on May 19, 1971. Approximately 120 children attended this program given by the department and the Middle School. Certificates were given to each boy and girl who attended this program. Awards were given to Mr. Kimball and Mr. Huard for their outstanding assistance to the school patrol during the past years. Letters of appreciation were sent to sponsors of this program who gave products in making this activity a success that it was.

Through the efforts of the American Automobile Association and other interested parties this program was a complete success among the children.

Films on safety and education were purchased by the department during the year and added to the department's film library. The department's film library has helped other agencies in their efforts in safety and education during the year.

In 1971, 2,231 bicycles in the Sanford and Springvale area were registered and inspected by members of the Sanford Police Department. This also is a very successful program with the youth of the community.

Juvenile Program

1971 saw the start of a new program in the area of juvenile programs planned and conducted by members of the Sanford Police Department. A part time juvenile officer conducted police relation programs at the junior high school over a period of three (3) months. Consisting of three (3) sessions in ten eighth grade divisions 200 students took part in this informal program. After the sessions held in the classrooms at the Junior High School, "rap" sessions were held after school with the students and the police officer. A total of 21 hours was devoted to this program starting late in the year and will continue into the present year. The topics of discussion were police equipment, talks on safety, pedestrian traffic, hunting, and laws most frequently violated by teenagers.

PROTECTION OF PERSONS AND PROPERTY

Specialized Firearm Training

The Sanford Police Department can be considered the best equipped and the best trained department in the area of firearms. The following can best describe and justify this statement.

In 1971, members of the department molded and reloaded 18,884 rounds of .38 cal. ammunition. Also reloaded were 1,000 rounds of shotgun ammunition and 300 rounds of .30 cal. carbine ammunition.

During the months of October and November members of the department qualified at the department range at the Sanford Airport. Four officers qualified expert, eight officers qualified sharpshooters and one officer qualified marksman. This is the largest number of officers we have ever had qualify.

In September six officers attended the State Police Pistol Matches in Thomaston, Maine. Our officers took 1st, 3rd and 6th in the sharpshooter division, and 4th, 8th and 16th in the marksman division. During the month of November 19 officers participated in the New England Police Revolver League pistol matches. Our teams took 4th and 5th in the advanced combat course, and 2nd, 4th and 5th in the Basic Police Course.

Traffic

122,013 miles within the Sanford and Springvale area were patrolled by members of the Sanford Police Department during the year 1971. Patrol hours consisted of 16,451½ hours while foot patrols contributed 8,305 hours. During these hours the following motor vehicle and foot patrol work was accomplished:

Investigation hours	1,341	
Criminal Arrests	441	
Written Complaints	1,124	
Warning Cards Issued	1,603	
Defective Equipment Cards Issued	1,888	
Total Accidents Investigated	616	
Field Interrogation Cards	242	
Motor Vehicle Arrests	830	
Total Motor Vehicle Contacts	5,243	
Escorts	911	
Parking Tickets Issued	954	
Traffic Duty Performed	863½	hours
Dispatching hours by officers	1,560	hours
Overtime by officers	1,259	hours
Sick leave used by officers	37	days
Vacation Time	84	days

PROTECTION OF PERSONS AND PROPERTY

Traffic Accident Summary is as follows:

Major accidents consisted of property damage of \$100.00 or more and/or personal injuries. Minor accidents were those of less than \$100.00 property damage and no personal injury. The previous year (1970) is also submitted in order that a comparison can be given with this report for 1971.

	1970	1971
Total Accidents Investigated	593	616
Total Major Accidents	398	417
Total Minor Accidents	195	199
Total Fatalities	1	4

Another year has come and gone and the Town of Sanford is still moving forward. The year 1971 was very good for the overall growth and development of the town.

Several projects were started or completed in various categories of the building trade. The permits report shows the breakdown of all units constructed. Among the projects started were the Rosenfield development on Route 99, it being for a large number of single housing units with, fortunately, both water and sewerage facilities, and the N. J. Gendron Lumber Company project on Route 109, South Sanford. Both of these projects now underway and others contemplated for 1972 will enhance the image and growth of Sanford.

To the average citizen it might appear that in the growth and expansion of a town that there are no problems. This is not the case at all, because it becomes the duty of the Town Planning Board to project ideas for the orderly and progressive growth of the town in all areas.

A comprehensive plan was formulated in 1958 and has been used as a guide since its adoption. Most of the plan has been fulfilled as of this date. Changes due to present day ideas and growing trends in the total area have created a very definite need for a new comprehensive plan for Sanford. At the annual town meeting for 1972 it was voted to have the Planning Board, together with professional help, create a new plan for the Town of Sanford. Hopefully the citizens of Sanford will participate in the program by making any suggestions regarding any phase of this proposed plan to the Planning Board, Selectmen or to the Building Inspector. It is hoped that the program will be one of good public relations, so that all citizens will be aware of the upcoming plan. Please help your Planning Board with a very important and vital job for better use of land which will promote progress for the town.

The building permits report listed herewith is proof of what is taking place in Sanford.

Thanks again to the Administration and all personnel who so kindly assisted with the work and problems of this office.

Respectfully submitted,

FORREST L. PILLSBURY

Building and Housing Inspector

PROTECTION OF PERSONS AND PROPERTY**REPORT OF THE WIRE INSPECTOR**

December 20, 1971

From: Donald H. Gagne, 1971 Wring Inspector
To: Board of Selectmen:
Subject: Annual Town Report on Town owned property and buildings, in regards to the electrical wiring and electrical apparatus.

The below buildings were checked and inspected and to the best of my knowledge the following discrepancies were found:

1. SPRINGVALE TOWN HALL—Open wiring on service entrance, oversize fuses.
2. SPRINGVALE FIRE STATION—Extension cords being used. Extension cord wrapped around conduit Also 30 amp. fuses in upstairs panel.
3. LINCOLN SCHOOL—Low voltage wire in boiler room loose. 300-watt bulb being used without shield.
4. HAMLIN SCHOOL—Extension cord in cellar loose. Low voltage wire dangling. Cover missing on bell system.
5. SANFORD TOWN HALL—Extension cord used all over the building. 30-amp. fuse being used throughout the building. Ext. cord wrapped around pipes. Wiring exposed at least six places throughout building. Low voltage wires and service wiring afloat and loose. Low voltage wiring and reg. wiring covers missing afloat. Bare wires all over building. This building is in bad need of electrical repairs.
6. SANFORD FIRE STATION—Good condition.
7. TOWN FARM DWELLING and WOOD SHED—Discontinued.
 Barn—
 Tool Shed—
 Chicken House—
8. EDISON SCHOOL—Good condition.

PROTECTION OF PERSONS AND PROPERTY

9. ROOSEVELT SCHOOL—Extension being used in class rooms. Also undersized wire being used in range receptacles.
10. LONGFELLOW SCHOOL—Torn down.
11. EMERSON SCHOOL—Good condition.
12. MIDDLE SCHOOL—South side feeder panel overloaded.
13. NEW SANFORD HIGH SCHOOL—Good condition.
14. LAFAYETTE SCHOOL—30 amp. fuses in panel, extension cord being used. Low voltage wiring loose and afloat.
15. HAWTHORNE SCHOOL—Loose wiring outside. Telephone wire hanging over main electrical board.
16. TOWN GARAGE—Good condition.
17. CEMETERY TOOL HOUSE—Good condition.
18. STONE CRUSHER—Disconnected.
19. STORE HOUSE—Good condition.
20. GOODALL MEMORIAL LIBRARY—Good condition.
21. MERCANTILE BUILDING—30 amp. fuses in several panels. Extension cords all over. Wires hanging all over. Loose wiring and not terminated.
22. AMERICAN LEGION HOME—Wall cases afloat, loose wiring.
23. FIELD SERVICE HOUSE—Good condition.
24. BAND STAND—Satisfactory.
25. JOSEPH CARPENTER FIELD HOUSE—Broken glass fixture outside. Loose telephone wire.
26. SANFORD INCINERATOR—Old One—Discontinued.
27. WOOD SHED—No wiring.
28. TOOL SHED—No wiring.
29. SAND SHED—No wiring.
30. SALT SHED—No wiring. Demolished.

PROTECTION OF PERSONS AND PROPERTY

31. SANFORD MEMORIAL GYMNASIUM—Wiring on stage and lighting dimmer very dangerous for fire, not properly installed.
32. NEW TOWN FARM—Good condition.
33. JUNIOR HIGH SCHOOL—Boiler room heater control to be wired permanently.
34. OLD VOCATIONAL SCHOOL—Tool room light fed by extension, intercom wire should be in raceway.
35. NEW SANFORD INCINERATOR—New installation was not done according to code and should be changed and modified to specifications.

I find buildings requiring janitors to be very well kept, and wiring specifications are met to the best of their ability. Janitors should be told not to use over 15 amp. time delay fuses unless such circuits are approved by a qualified and licensed electrician. All motors over 1 h.p. should have a magnetic starter with proper heaters.

In all my travels, the Sanford Town Hall is by far the worst wired building in town. This building needs a great deal of repair.

All buildings not being used or condemned should have the meter disconnected.

If any further information is needed in regards to this report please feel free to contact me.

Yours truly,

DONALD H. GAGNE

Wire Inspector for the
Town of Sanford

HEALTH AND SANITATION
REPORT OF THE
HEALTH OFFICER FOR THE YEAR 1971

January 22, 1972

To the Selectmen, Town of Sanford, Maine

As Health Officer for the Town of Sanford for the year of 1971, I herewith submit a report of health activities during the current year.

Taking care of all vagrants and intinerants who hit town and need care.

Emergency commitments at request of police or selectmen.

Exams for fitness to work at request of selectmen.

Health calls—tenants about questionable conditions of their rents—cleanliness—sewerage—heat—water.

Daily conferences with town nurse as to problems arising with patients receiving town help. Caring for same when indicated.

Supplying drugs for patients receiving town aid.

Writing of prescriptions for town and patients through town nurse.

Appointment of plumbing inspector—receiving plumbing complaints and investigating same and/or referring them to plumbing inspector.

On call for town and itinerants at request of selectmen or town nurse at all times.

Telephone advice to anyone calling—these are nuemorous due to Health Officer classification in phone book.

Examine patients at request of selectmen and/or town nurse.

Receiving and reporting to Augusta Bureau of Health all contagious disease cases reported.

HEALTH AND SANITATION

Buying drugs directly from pharmaceutical houses and utilization of sample drugs.

Answering inquiries concerning health inoculations for overseas travel.

Investigating "health hazards" (unhealthy living conditions, unsanitary houses, poor nutrition, maltreated or illfed and cared for children at request of selectmen or town nurse.

Exams of elderly living alone—at request of selectmen or town nurse—to ascertain if mentally competent to continue living alone.

Respectfully yours,

A. S. LINCOURT, M. D.

Health Officer

ASL:srh

HEALTH AND SANITATION

REPORT OF THE

COMMUNITY HEALTH ASSOCIATION, INC. — 1971

The Community Health Association was established in 1922 to "Make Sanford and Springvale the healthiest community in the State of Maine". And now, after having completed forty-nine years of service. I don't know that we can lay claim to the accomplishment of this task, but we can certainly say, "We're trying".

The work of the Association, in keeping with modern thinking, is "Health-Oriented", not "Illness-Oriented". Our major emphasis is on the prevention of illness through education, teaching, and screening programs. And, too, we offer the traditional skilled bedside nursing care of our Registered Nurses, which is available to any resident.

Our program concerns five major areas:

1. Health Education:
Home visits increased nearly 30% over 1970.
2. Outpatient Laboratory Blood Testing Services
An average of four calls per week.
3. Clinics:
Attendance at monthly Pre-School Immunization Clinics increased more than 25%. We held one Rubella Clinic, Four Foot Clinics, and Two Flu Clinics.
4. Bedside Nursing:
Number of individuals served increased 30%, while number of calls averaged 128 per month.
5. Parochial Schools:
One of our nurses received special training in the use of the audiometer, and hearing testing was begun, as well as follow-up and referrals for same. We continued the regular program, including physical exams, head checks, immunizations, eye, Diabetes and Tine testing.

Miscellaneous

Our staff continued annual participation in the Diabetes Detection Program conducted by Melvin Bacon, M.D. C.H.A. Medical Advisor, and Chairman of the Diabetes Committee of the Maine Medical Association. In addition to providing a testing station at our office, we also assisted in testing nearly 13,000 Drey Paks at the Nason College Science Center. A new program this year, arranged by Dr. Bacon in conjunction with Goodall Hospital, was a Blood Sugar Testing

HEALTH AND SANITATION

Clinic held at the Trafton Senior Citizen Center. Eighty-two individuals participated.

Dr. Bacon's keen interest in Continuing Health, Education was made manifest by arranging for the Fourteenth Annual Nurses Institute—"Pediatrics", and a public meeting on "Athletics for Youth". Both of these programs were held at Nasson College and sponsored by the Community Health Association.

The Christmas Clearing House continued for the eighth season, again under the capable leadership of Mrs. Kenneth Kornetsky. She spent endless hours in collaborating with the Town, School and CHA Nurses, social workers and Salvation Army, to prevent duplication of giving at Thanksgiving and Christmas. As a result, a record 85 families including 141 adults and 347 children were provided complete Christmas dinners. Depending on the need, toys and clothing were also distributed to an additional 337 children, through the generosity and cooperation of many individuals, fraternal and civic organizations.

Our second year in the First Aid Station at Acton Fair proved to be a busy one. We served 176 individuals, or nearly 4 times as many as last year.

Fifty-five meetings and Staff Education Programs were attended. Speaking engagements were fulfilled at the Searchlight and Rotary Clubs, the "Community Organizations" Class at Nasson College, and two York County Extension Aides' meetings.

Twenty-six callers visited 49 shut-ins in conjunction with our Friendly Visitors Program. Anyone wishing to participate may do so by calling Mrs. John Keefe, Chairman, Telephone: 324-3933.

New programs instituted this year were the "Lazy Eye Blindness" Vision Screening Clinic held at the Junior High School in conjunction with the Sanford Lions Club; the Blood Pressure Clinic held monthly at the Trafton Center; and the Cancer Screening Clinic at Goodall Hospital. The latter was held in conjunction with Goodall Hospital, York County Medical and Osteopathic Societies, Maine's Regional Medical Program, Maine Cancer Society, Community Action, and Maine Department of Health and Welfare. Sixty-five 4 and 5-year olds attended the Eye Clinic, an average of 20 Senior Citizens are checked each month at the Blood Pressure Clinic, and over 150 women were examined at the Cancer Clinic. Also, as of this year one of our nurses accompanies the Senior Citizens on every bus trip.

HEALTH AND SANITATION

Our Nurses actively participate in professional organizations, holding such offices as Chairman of the York County Public Health Nurses Group, Program Committee Member of the same, Director and Member of the Program Committee of the Pine Tree Association of Home Health Agencies, Chairman of Maine's Regional Medical Program ad hoc Committee for Continuing Education for Nurses, Member of Joint Program, Hospitality and Public Relations Committee, Western District of the Maine State Nurses' Association, and two are members of the Program Committee of the Maine State Nurses' Association, Public Health Section.

Two of our Nurses hold "School Nurse Certificates", having met the requirements for certification as set forth by the State Board of Education. One nurse completed the course given at Nason College by the Goodall Hospital and York County Civil Defense, and is a Licensed Ambulance Attendant.

Summary

Over 5,200 nurse working hours, 600 secretarial hours, and more than 12,000 miles of travel were necessary to carrying on our program. But in addition to this were the many volunteer hours expended by our Board of Directors in attending meetings, planning programs, helping at clinics, preparing Christmas Cheer for shut-ins, and exploring with the other Public Health Agencies in York County the possibility of Regionalization.

Cooperation is the keynote to success and in this we abound. In continuing our diversified program, we welcome every opportunity to work with the local, county and state organizations to meet the health needs of individuals and families in the home, school or community.

We begin our fiftieth year with pride in the knowledge that we have faithfully served the people of Sanford and Springvale, and confidence in our ability to meet the challenge for rendering service in the years to come.

Respectfully submitted,

(Mrs.) Marolyn P. Roberts, R.N.

Executive Director

Community Health Association, Inc.

REPORT OF THE ACTIVITIES OF THE SANFORD PARK COMMISSION — 1971

1971 was an active year for the Sanford Park Commission, particularly in the cutting of diseased trees, planting of new trees, the expansion of our skating rink, the new lights at Goodall Park, the growth of our swimming program at the Springvale Recreation Area, and the paving of roads and drives at the Gowen Memorial Park.

The series of weekly band concerts was held in the Gowen Memorial Park bandstand and the concerts were enthusiastically received by large crowds.

The Park Department has also helped, in a small way, the Midget Football Program carried on by the Sanford-Springvale Youth Athletic Association.

During the months of April to November of 1971, Goodall Park had many successful activities. These included Midget Football, Babe Ruth Baseball, Sanford High School Baseball, which includes varsity, junior varsity and freshman teams, and American Legion Baseball.

Our parks and playgrounds had very good to fair attendance during our eight weeks program. Our tennis program, under the leadership of Mrs. Sue Ackley, was very successful and ended with a fine tournament.

A dream of twenty years finally materialized in that we now have lights for night baseball in Sanford. A great deal of work had to be put into this program and a special thanks is in hand for Mr. George Normandeau, Jr., for his talents and leadership made this project possible. Other men who deserve recognition for their free labor and valuable time were Robert Lessard, Ray Beauchesne, Donald Cormier, Mike Brown, Frank Davis, Don Lachance, and the linesmen, Joe Duprey, Dick Hanson, Andre Vermette, Roland Fortier, Dick Provencher and all the others, who in their small way, helped to make this project a success. Thanks also to the following for donating equipment and materials to our lighting project: H. Allen Mapes, Henry Desmarais, Lt. Col. Joseph Desmarais, Central Maine Power, and Guillemette Bros.

New plans and events for 1972 are as follows: continue our tree program, the State Babe Ruth Tournament will be held at Goodall Park, work on the tennis courts and also find another area for a second skating rink.

We are always trying to find new and better ways to make our parks and playgrounds serve more people in a more efficient manner. Suggestions from all the citizens of Sanford are welcome.

Respectfully submitted,

ROBERT J. BLOUIN, Chairman

In Memoriam

LEO C. PELLETIER

Born at Sanford, Maine, January 15, 1917

Died October 19, 1971

Town Clerk-Tax Collector for the town of Sanford
1946 - 1971

A dedicated public servant in many civic and
religious endeavors who will be missed.

ANNUAL REPORT

Town Clerk and Tax Collector

January 1 to December 31, 1971

REPORT OF VITAL STATISTICS

BIRTHS

There were three hundred and seventy-six (376) births recorded in this office for the year 1971. This figure shows an increase of eleven (11) births as compared with the year 1970.

Of this number, two hundred and three (203) were of the male sex and one hundred and seventy-three were of the female sex.

In addition, fifteen (15) births were reported from other city and town clerks during this same period.

TOWN OF SANFORD, MAINE**AUDIT REPORT****DECEMBER 31, 1971**

March 21, 1972

BOARD OF SELECTMEN

Town of Sanford

Sanford, Maine

Gentlemen:

We have examined the Statement of Financial Condition of the Town of Sanford, Maine as of December 31, 1971 and the related statements of general fund surplus and departmental operations for the year then ended.

Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying Statement of Financial Condition and related statements of general fund surplus and departmental operations present fairly the financial position of the Town of Sanford, Maine at December 31, 1971 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Central Office

Town Hall Annex, 265 Main Street, Telephone: 324-2810
 Hours: 8:00 a.m. - 12:00 noon; 1:00 p.m. - 4:30 p.m.

No School Notification

The "No School Signal" will be sounded only on those occasions when concern for the pupils makes it imperative.

Parents are urged to keep their children at home, even when school is in session, if road conditions in their locality are particularly hazardous.

On the occasions when the "No School Signal" is sounded, there will be no school for all pupils for the entire day.

Official notification will be given whenever possible over the following radio stations: WSME, Sanford; WWNH, Rochester, New Hampshire; WCSH and WGAN, Portland, from 6:20 a.m. on.

The fire alarm will sound four times at 6:45.

When it becomes necessary to suspend the afternoon session of school, the signal will be given at 11:00 a.m.

EDUCATION

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Dr. Robert H. McCarn

I have had the pleasurable opportunity of serving as your Superintendent of Schools for the year of 1971. The School Committee organized on January 4, 1971, as a newly installed Committee consisting of five members with John M. Caramihalis elected to be Chairman. New members were Dr. Maurice J. Morin, Bruce Carlson and Aldege Gauthier. Former members remaining on the Committee were Roland Gauthier and John Caramihalis.

Sanford has continued to grow substantially in the number of pupils, teachers, and other staff members. Ten additional instructors were added to provide for the increased enrollment, to provide for the requirements of the State Department of Education for full approval and also to anticipate the standards demanded by the New England Accrediting Agency for secondary schools and colleges. Sanford High School will be evaluated by this body within the next two years. All teachers must meet the certification requirements established by the state. I wish at this moment to pay tribute to those new teachers who have ably demonstrated during the past year their dedication and devotion to duty. They have proved to be an asset to our school system. We have made every effort to keep the teacher per pupil ratio in each class between 25-30 with few exceptions. This has helped greatly to individualize instruction and to give special attention to those individual pupils who are so much in need of it. The New England and State of Maine accrediting agencies, as well as the Sanford Teachers Association, have strongly emphasized this policy with which our School Committee has made every reasonable effort to comply.

Several meetings were held during the year between the Sanford School Committee and the Sanford Teachers Association for negotiation purposes concerning salaries, working conditions, and other matters pertaining to the administration of schools. Chairman John Caramihalis acted for the School Committee and the President of the Sanford Teachers Association represented the teachers. They were assisted in this matter of negotiations by Attorney Frinsko for the School Committee and Mr. Bustin for the teachers. Their special assistance was of great help in eventually arriving at a peaceful and harmonious settlement which greatly improved the morale of all interested parties.

EDUCATION

At the beginning of the year the Bus Contract had to be adjusted due to the opening of the Middle School, additional students riding the buses, increased mileage, and additional buses. A bus strike was averted and the dispute agreeably settled by York Lines and the Sanford School Committee. Obviously the contract in force did not provide for the substantial changes required.

I shall endeavor to point out briefly the most important events occurring during the calendar year.

The status of the Sanford Memorial Stadium was determined for all practical purposes to be under the jurisdiction of the Sanford School Committee. Attorney James Titcomb was consulted concerning this matter.

Mrs. Helen Fenton was hired as full time librarian for the Middle School.

The School Committee accepted a \$5,000 Federal Grant for the Model Library. In my opinion, one of the highlights of the year 1971 was the action taken by the Sanford School Committee in obtaining temporary suitable and finally, permanent facilities for the Trainable Class. The Carpentier Field House was found inadequate and through the kindness and courtesy of the Minister and Trustees of the Congregational Church their beautiful Educational Building was made available for these worthy youngsters whom the famous poet Wadsworth once cited his belief that "their life is hidden with God, that by their very incapacity for ordinary intelligence or for the normal experience of adulthood they are permitted to remain near the fountains of God."

Finally at a special Town Meeting held in September the Hawthorne School was returned to the School Committee and this school seems ideally erected to meet the needs of these exceptional students. I must pay special tribute to Mrs. Ethel Lolley, the Principal, and Mrs. Anderson for their marvelous work with this special group which requires so much concern and self-sacrifice on their part.

A music teacher for Art and Music for all grades K-3 was hired on a temporary basis.

Considerable study and discussion was given by the Committee to the institution of a sound and effective policy for the introduction of intra-murals at Sanford High School.

A Drug Program endorsed by the State of Maine Department of Education was instituted for grades K-12 in the Sanford School System. Reports were given during the year outlining its progress. Our school physician, Dr. Vachon,

EDUCATION

has done much to implement this program and he advises many students individually in this most important and dangerous area of student life. He deserves much credit for work over and beyond the call of duty.

Through the efforts and inspiration of Chairman John Caramihalis, the Committee unanimously resolved to seriously study and promote the Community College concept in Sanford.

All teachers were provided the opportunity to take a special course in Reading improvement with Dr. Fickett, special instructor at Gorham State College.

Mr. Clyde Kimball was assigned as Elementary Supervisor for grades K-6 and also to give assistance to Principal Carl Hurd of the Middle School. This action was unanimously approved by the Committee.

Saint Ignatius School eliminated the 7th and 8th grades in June 1971. This required their enrollment and placement in the Junior High School.

Future closing of parochial schools or grades will necessitate the possibility of renovating the Vocational Annex, the purchase or rental of present parochial school buildings, adding to existing public school buildings and potential construction of additional new schools. It has been predicted that Sanford will expand its population in the next ten years toward the 25,000 mark with the new housing units contemplated.

Sanford High School was fully accredited by the State of Maine Department of Education for a five year period.

The Sanford School Committee deeply regretted the retirement of Mrs. Mary Pascucci as a very efficient and loyal secretary for many years.

Arbor Day was observed with fitting programs in all schools. The very valuable and beautiful shrubs donated from the Marland Estate were planted by the Horticulture Class under the direction of Mr. Lohmiller and not a single one was lost.

Mr. George Mays of the U. S. Department of Labor, after study and inspection of records, reported to the Committee that \$10,266.98 for overtime should be paid in varying amounts to 25 custodians of the Sanford School Department. It was unanimously agreed by the Committee that this amount be paid in full compliance with the law.

EDUCATION

A 10,200 gallon fuel tank was installed in the Middle School.

The heating system in the Memorial Gymnasium was completely renovated. The bid was awarded to Philip Tremblay.

A committee of custodians was formed during the year for the purpose of conducting negotiations.

An amount of \$25,000 for the Sanford Music Program was made available through the Beatrice and William S. Nutter Fund.

All head teachers in the elementary schools were designated as Teaching Principals.

The Agreement for the year 1971-72 between the Sanford School Committee and the Sanford School Administrators was ratified and signed by Mr. Caramihalis and Mr. Hurd on May 3, 1971.

The Agreement for the year 1971-72 between the Sanford School Committee and the Sanford Teachers Association was signed and ratified by Mr. Caramihalis and Mr. Jack on May 3, 1971.

A beautiful new floor was installed in the Memorial Gymnasium and the central kitchen area in the cafeteria was expanded with State Department approval. Much new equipment was purchased with Federal Funds.

The Sanford Reading Program was greatly improved and enhanced under the direction of Mrs. Celia Butler. Several workshops and conferences were held in this area of the school curriculum. New staff, equipment, and supplies were acquired. Much teaching and evaluation was done.

New salary schedules were approved for the secretaries, Cafeteria Supervisor, Bookkeeper, Assistant Librarian, custodians, nurses and School Doctor, Electrician, and Supervisor of Buildings.

The Vocational Program, under the direction of Mr. Frederick St. Cyr, was awarded a National Merit Award especially for the Home Building Program. Special courses in Auburn were approved by the School Committee for 16 members of his staff.

A new bus contract was awarded to the York Lines for a 3-year period at an annual cost of \$65,537.50 per year. Congratulations were extended to the company for their

EDUCATION

record of safety during the year.

A fence was erected around the stadium through the efforts and initiative of the Sanford High Athletic Boosters Association. The School Committee voted an allocation of \$4,000 of its budget for this purpose.

An inspection of all schools was made by the Sanford School Committee on Wednesday, August 25, 1971. There was favorable comment concerning the condition of our buildings and much credit was given to Roland Carrier.

Permission was granted by the Committee to Mrs. Pascucci to work on a part-time basis as secretary when needed.

A regulation was made concerning passes to athletic events. None are to be issued, except to senior citizens who wish to apply.

A paved area was installed between the Middle School and the Memorial Gymnasium at a cost of \$3705. It was voted to take the money from the Lucy Emery Fund and to name the playground in her memory and honor.

American Education Week was duly observed from October 24-30. There were many parents and visitors who attended. A supplement in the Tribune indicated many of the new projects and programs during the year.

Authorization was voted to the Superintendent to receive donations for the new stage draperies in the Memorial Gymnasium. Quite a substantial amount has already been realized.

There was much cooperation between Nasson College and Sanford in a variety of curriculum programs during the year.

New rules, regulations, and policies were adopted concerning the operation and use of the Sanford Memorial Gymnasium.

The schools of Sanford made much progress during the year in all areas of the System due to the good morale, cooperation, coordination, continuing interests of all groups directly connected with their operation, the School Committee, entire staff of teaching and non-teaching personnel, students, parents, all the town officials of the various departments who helped in so many ways, and the entire citizenry. Sanford is a fine town in which to live.

EDUCATION

May it be progressive, prosperous, and successful in the years ahead.

My thanks to all who assisted me in this challenging and difficult but rewarding task of being the Superintendent of Schools.

REPORT OF THE ADULT EVENING SCHOOL DIRECTOR

John E. Webb, Jr.

Sanford Adult Evening School, the Adult Education Division of the Sanford Public Schools, offers programs which are rich and varied in content. The school provides classes for any group who has an interest whether it be training or re-training, vocational or avocational, or the pursuit of knowledge for the pure pleasure of learning. Adults have an opportunity to continue their education, learn new skills, develop new interests, and make acquaintances in a friendly environment.

The 1971 program included 31 different courses of study with 620 people participating. The following classes were held: basic securities and investing, basic and advanced clothing construction, cake decorating, men's and women's physical education, ecology, basic and advanced drawing and painting, holiday decorations, dog obedience, square dancing, small engine repair, furniture fabrication, basic electronics, sheet metal layout, data processing, home horticulture, welding, typing, shorthand, blueprint reading, basic auto mechanics, home carpentry, and machine shop practice. Also available were high school equivalency courses in reading, mathematics, English and science along with high school diploma courses in English and mathematics.

During the January term a program leading to a Sanford High School diploma was instituted. Under this plan, adults can earn credits in evening school sessions in addition to receiving credits for work experience and military service. Initially, 26 people enrolled in the program.

The entire faculty, staff and students are interested in promoting the motto: ADULT EDUCATION DOESN'T COST —IT PAYS.

EDUCATION

REPORT OF THE HIGH SCHOOL PRINCIPAL

John R. Parker

Enrollment

The opening enrollment in September 1971 was 1247. This represents an increase of 38 students over last year's opening enrollment. The opening tuition enrollment was 80 students, all of whom were enrolled in vocational programs. Students were enrolled from Massabesic, Noble, Traip, Wells and York. Fifty-three were enrolled as full-time students and 27 as part-time.

Year	Resident	Tuition	Total
Freshmen	327	14	341
Sophomore	334	12	346
Junior	268	30	298
Senior	237	24	261
P. G.	1		1
	1167	80	1247

Facilities

At the present writing the new high school building has been in use for approximately 1½ years, with the vocational areas operating for nearly two years. The design, function and utilization of this building continue to be a source of pride to students and townsfolk alike. We continue to host visitors from all over New England who are concerned with functional school facilities at reasonable costs.

Academic Program

The foreign language program was expanded this year with the addition of Spanish II as a regular full credit offering. An introductory course in German is also being offered in cooperation with the German department at Nasson College.

The vocational Child Care course had to be expanded to accommodate an additional section of students.

The English program has been revised to schedule teachers in their areas of strength, thus making the specialist teacher available to more students.

The Vocational Department was selected to participate in the Tri-State Curriculum Project. Most department members attended a summer workshop and have attended work sessions throughout the year. They are re-writing course content and objectives on a unitized, individual basis.

EDUCATION

The Class of 1971 graduated 250 students, a follow-up of which shows that:

- 53.6% continued their education on a full-time basis
- 35.2% are employed in business or industry
- 3.2% are in the military
- 3.2% are housewives unemployed outside the home
- 4.8% are unemployed

100%

Faculty

The present faculty includes 7 new members. They include 4 replacements and 3 additional positions. Two members left to do graduate work, one moved to teach elsewhere and one left education to enter business. New positions were added in English, Foreign Language and Mathematics.

Accreditation

Sanford High School was last evaluated for accreditation purposes in 1963. State accreditation was due to expire this past year. Following a visit by the State Department of Education and the subsequent completion of five state requirements, Sanford High School's state accreditation has been extended an additional five years. However, in order to remain accredited by, and a member in good standing of, the New England Association of Schools & Colleges, it will be necessary to participate in a re-evaluation during 1973. This will entail a year long study on the part of the entire staff and administration.

Extra Curricular

Under the sponsorship of Mrs. Patricia Dillon, Librarian, the "020 Club" was formed to develop and maintain a superior quality of library services. The student aides have made this a most active and valuable organization.

The Student Council introduced a new form of student government with a House of Representatives approach. They were instrumental in establishing among other things, an early release for juniors and seniors with free periods.

The Band and Glee Club participated in the Western Maine and All State Music Festivals. The Band exchanged concerts with Maynard, Massachusetts and sponsored the annual Pop Concert. The Glee Club exchanged with Medford, Massachusetts and presented Oklahoma as its operatic highlight.

The Key Club had its usual outstanding year and returned from the New England Convention as the top club in its field. Key Clubbers continue to be responsible leaders and workers in the school and community.

Drama has been especially active this year, while many other students are actively engaged in such organizations as the Pep Club, Math Club, Ecology Club, Future Homemakers of America and National Honor Society.

EDUCATION

Athletics

The girls' athletic program continues to be highly competitive and equally successful.

It would seem that our boys' interscholastic athletic program is due for re-evaluation. We now compete in the Telegram Baseball League, the Big Eight Basketball League and in the Class "A" Football, Track and Cross Country Conferences. We must reassess our system-wide athletic priorities if we are to be reasonably representative in our present competitive brackets.

The Athletic Boosters spearheaded a drive to improve the stadium facilities which resulted in a new press box and a chain link fence surrounding the stadium. Bleachers were repaired and new sections added. Cobb Stadium is now the finest facility of its kind in Southern Maine.

General

The student body, faculty and staff are commended for their continued cooperation and spirit. These are the people who truly represent Sanford High School.

My personal appreciation is extended to all who continue to support quality education in Sanford.

REPORT OF THE ELEMENTARY SUPERVISOR

Clyde Kimball

The enrollment of the six Elementary Schools and the two Special Education Schools as of December 31, 1971 was:

Edison	222
Emerson	240
Lincoln	204
Lafayette	190
Roosevelt	149
Hamlin	71
Hawthorne	16
Middle School	757

1849

This is an increase of 41 pupils over last year. The greatest increase was in the Middle School.

New teachers this year are as follows:

Mr. Lawrence Ryan	5th Grade Middle School
Mr. Nathan Howgate	6th Grade Middle School
Mr. Richard Boisvert	6th Grade Middle School
Miss Linda Vermette	1st Grade Lincoln School
Miss Celeste Nadeau	1st Grade Emerson School

EDUCATION

Mrs. Sharon Bridges	2nd Grade Lafayette School
Mrs. Deborah Novack	2nd Grade Lafayette School
Miss Anita Doyle	2nd Grade Lafayette School
Mrs. Barbara Goldsworthy	3rd Grade Lincoln School
Mrs. Patricia Seaward	Girls' Physical Education, Middle School
Mrs. Judith Page	Music Teacher Middle School
Miss Mary Ann Michaelson	Art Teacher K-3 and Special Classes

Report on Reading Programs Curriculum

Basically the philosophy and instructional organization of the reading program in Grades K-6 of the Sanford Public Schools has remained the same: placement of pupils in materials suited to their needs and learning styles, flexibility of grouping for these instructional needs, and allowance made for pupils to progress according to their own individual rates of learning. However, in accordance with our policy of constant reevaluation, some changes in structure and materials have been made at both the primary and middle grade levels.

In the spring of 1971 teachers in Grades 3 through 6 worked with your Reading Supervisor to develop a series of local achievement-placement tests in reading. This was done because available standardized tests had not proven satisfactory as tools for measuring those skills we considered essential for placement of pupils.

The results from these tests indicate that they are much more reliable for our purpose. We plan to reevaluate and revise the tests until they are as nearly perfect as possible. In addition, we hope to develop a set of local norms by which we can measure the efficiency of our instructional program.

As part of our efforts to coordinate instruction in all schools, Dr. Robert McCarn made arrangements with Miss Lois Ramsey of Framingham, Massachusetts, to conduct a phonics workshop for all public and parochial school teachers, Grades K through 6. Three two-hour sessions were held during the first three weeks of November at the Middle School. Miss Ramsey stressed the oral practice needed by pupils, basing her instruction on the Hay-Wingo System of Lippincott Company. Each person participating contributed ideas and games which were incorporated into a Phonics Handbook which has been compiled by the Reading Supervisor, and will be distributed to each teacher.

Title I - ESEA

Sanford has been most fortunate in receiving funds from the Title I Program.

Initiated in April, 1966, with Mr. Kenneth Johnson as coordinator, Mr. Clyde Kimball and Mrs. Celia Butler as the only personnel, our remedial reading program has expanded yearly. Mrs. Anna Lou Palmer, social worker, joined the staff in 1967. In March, 1971, Mrs. Ruth Randall was hired as Teacher Assistant to Mrs. Butler. Funds granted

EDUCATION

in September of 1971 made possible the addition of Mrs. Evelyn Burrows, Remedial Reading teacher, and Mrs. Doris Chadbourne as her Teacher Assistant. Then in February of 1972, Mrs. Mildred Greer was hired as a remedial teacher for the Primary Schools. Also at this time, Mrs. Ruth Bentley began her duties as assistant to Mrs. Palmer.

With this enlarged staff, we are able to serve more children and work with them in smaller groups or on a one-to-one basis, which is necessary in many cases. Of great importance also, is the fact that it is possible to schedule classes for pupils two days a week rather than one day weekly as in past years. Remedial Reading pupil enrollment in the program is as follows:

Edison School	17	Notre Dame School	15
Emerson School	13	Middle School	42
Holy Family School	17	Roosevelt School	4
Lafayette School	20	St. Ignatius School	19
Lincoln School	17		
		Total	164

Hamlin School which up until two years ago housed grades 4, 5, and 6 has now put on a new face. Since the opening of the Sanford Middle School in the fall of 1970, it has given the opportunity for Sanford's Special Classes to enjoy what Springvale's business and socialized community can offer in ways to enrich the classroom learning programs. These areas would be its library, post office, fire department and other points of concern.

Hamlin School which houses two classes for the Educable Mentally Retarded has also added this year two sessions of Kindergarten for the Springvale children. The Courtesy Clothing Room set up in the basement room since September of 1970 has served many families through the kind volunteer workers.

With the beginning of the 1970-71 school year Carpentier Park School for the trainable retarded became a part of the Sanford School system. Enrollment was sixteen with two teachers, one aide, volunteers from Nasson with credit and non-credit status.

When Dr. McCarn was hired Superintendent, the search was immediately begun for a more suitable place to locate this school. Rooms in the Congregational Christian Education Building were rented for the last semester. Curriculum was expanded to include custodial-housekeeping work.

This school year found these classes located at Hawthorne School in South Sanford. This building and grounds have proven to be a most suitable arrangement. Two large classrooms provide ample space for the activities necessary for the utmost development needed by these students. Academic subjects are still the core of the program aided greatly by educational T.V.

For the first time this school is able to participate in the

EDUCATION

hot lunch program (three days a week)—the students themselves serving and cleaning up. The other two days each week cooking classes prepare the noon lunch. Meals are planned, marketing list prepared, weekly shopping trips are made by the students.

Custodial work is also done daily in a learning and helping situation.

Much progress is being made with these children and here they have a place of their own in which to express themselves—each according to his or her wishes and abilities.

Students at Edison are meeting once a week for specialized help in reading. Children needing to develop better listening habits are sent to a class devoted entirely to developing that skill. Those needing to develop better comprehension spend an hour on just that particular skill. In another room a class needing help with vowels, or blends will be concentrating upon that area. This necessitates frequent meetings to discuss each child's progress, to determine placement of each child, and to make decisions regarding the skills needing to be taught or reinforced.

Each of the five teachers involved feels that the skills hour is successful for it is another step toward individualizing; it better meets the needs of each child.

Achievement and Mental Ability tests were given again this fall. We find that the fall testing is proving more helpful to the pupils and the teachers than the spring testing.

Because of the Middle School, we have a lot less bussing from one school to another to keep the ratio under 30 pupils.

We added another transitional grade this year at the Lincoln School. We now have a total of three.

The hot lunch program is expanding every year.

Sports:

Our sports program is carried on now at the Middle School. Mr. Metcalfe, Mr. Crouch, Mr. Morin and Mrs. Seaward are the coaches. Since we have the use of the Memorial Gymnasium practically all sports and games can be carried on all during the school year. I think we have an outstanding basketball program. In the spring we run our intramural programs.

I have enjoyed working with the Superintendent, Principals, and teachers—visiting classes and helping wherever possible. The new Middle School has been a challenge to all of us and I am sure we have met this challenge with great success.

REPORT OF THE JUNIOR HIGH SCHOOL PRINCIPAL

J. Robert Brunelle

In this report I will deal with the negative and the positive at the Sanford Junior High—the negative first.

EDUCATION

There are two areas that glare at me each and every day that must be dealt with in the near future if we are to meet the needs of our students in Sanford. Both problem areas will cost the taxpayers money.

Problem number one is that of classroom space. This coming year will be the last grace year that we will have as far as enrollment is concerned. The departing eighth grade which numbers 278 will be replaced by an incoming seventh grade of approximately 300 if the parochial schools maintain their status quo. If the parochial schools do eliminate their junior high levels it could mean figures of 336 in grade seven and 264 in grade eight for a total enrollment of 600. This would put a tremendous strain on existing facilities and staff.

The following year could mean 333 seventh graders and 336 eighth graders in a building designed for 370 students. If this becomes fact, I would have to recommend double sessions which would eliminate some problems but create others. Needless to say, it would be with reluctance that I would make such a recommendation.

Already the Junior High facilities such as lunchroom, Library, Homemaking, Industrial Arts, Activity Room, Lockers, corridors and rest rooms are being taxed to the maximum.

Problem number two is that of reading. Different from the first but tied into it because of space. At present we do receive students from other schools that read as low as the fourth grade level. We do not have a comprehensive reading program at the Junior High that will meet the needs of these students. We do offer English, Social Studies, Mathematics, Science, French, Art, Music, Homemaking (girls), Industrial Arts (boys), and Physical Education but not reading which is applicable to all of the aforementioned subject areas. This problem is of grave concern to me and the entire staff at the Junior High. Hopefully we will be able to make some moves in this direction to alleviate the problem in the near future.

Yes, there is a positive side to the Junior High. First and foremost is the staff—people—real people who come to school ready to meet the challenge head-on each and every day. Sanford has every reason to be proud of its Junior High as a building but more so for the activities that occur there . . . activities geared at developing acceptable social conduct, respect and responsibility . . . activities designed toward strengthening the mind, the body and id . . . to help each student accept their High School years and future life as mature young men and women.

The number of awards presented to students in athletics, Physical Education (Presidents Physical Fitness Program), music and the academics do in fact attest that good and desirable things happen to seventh and eighth graders

EDUCATION

This writer would be remiss not to mention the retirement, last June, of Harriet Osborn. Miss Osborn dedicated her life to the young people of Sanford. Her 43 years of service to this community encompassing two generations will not often be equaled.

The following poem by the late Louis B. Woodward expresses best my thoughts of Miss Osborn:

Why I Teach

Because I would be young in soul and mind
Though years must pass and age my life constrain,
And I have found no way to lag behind
The fleeting years, save by the magic chain
That binds me, youthful, to the youth I love,
I teach.

Because I would be wise and wisdom find
From millions gone before whose torch I pass,
Still burning bright to light the paths that wind
So steep and rugged, for each lad and lass
Slow-climbing to the unrevealed above,
I teach.

Because in passing on the living flame
That even brighter burns the ages through,
I have done service that is worth the name
Can I but say, "The flame of knowledge grew
A little brighter in the hands I taught,"
I teach.

Because I know that when life's end I reach
And thence pass through the gate so wide and deep
To what I do not know, save what men TEACH,
That the remembrance of me men will keep
Is what I've done; and what I have is naught,
I teach.

In closing I would like to thank the many people from all facets of the community who have made this year an enjoyable one for me. Special thanks and appreciation go to the teachers and staff of the Sanford Junior High School.

REPORT OF SCHOOL HEALTH SERVICE — 1971

Jeanne Gauthier, R. N.

The school health service endeavors to give the children the best possible protection in a planned program. Community resources are used when available for the individual child.

Physical examinations are given by Dr. Robert Vachon to students in the first, fourth, seventh and ninth grades and to students participating in competitive sports. Referral notices are sent to parents if further care was advised by the examining physician. (total physicals - 1327. Four students were referred to their private physician for further

EDUCATION

cardiac evaluation)

Sight Conservation—The same group are given vision examinations by the school optometrist, Dr. Kenneth Kornetsky. A total of 2200 vision exams were completed and 47 children found to need further care. Children in other grades are tested on a referral basis.

Conservation of Hearing Program—Individual audiometer testing is given to children in grades one and four. Other grades are tested on a referral basis. Parents and teachers are notified if further attention is warranted. (565 students were tested—9 referred to private physicians.)

Tuberculosis Prevention Program—This program has been discontinued for school children by the Dept. of Health and Welfare. However, teachers and other school personnel are still eligible and must have a Tine Test or chest x-ray every two years. This is arranged by the school health service.

Immunization Program—Rubella (German Measles) Vaccine was given to 1350 students by the school physician. The vaccine and literature was supplied by the State free of charge.

Home visits are made by the school nurse when necessary for the purpose of discussing the need and importance of utilizing town and state health services available and to establish a rapport between the parents and nurse.

Health units are used in the Middle School, Junior High School and High School. The purpose of these units is to offer first-aid and care to students who become ill in school until parents are notified. The number of students who have used this service are as follows:

High School - 5200
Junior High School - 1800
Middle School - 3200

Each student in the school system has an individual health record. Immunizations, vision, hearing and physical exams done in the school system are recorded on these records along with other pertinent medical information.

Home tutoring is arranged for students who are physically handicapped or at home recovering from an illness. There is no charge for this service.

Each school in the system is equipped with first-aid supplies and rest areas for ill students until their parent are notified.

800 children participated in the Diabetes Detection Program.

Modern medicine has made great strides. Children with illnesses as diabetes, epilepsy, arthritis and muscular dystrophy are being accepted as full time students in public school systems, whereas, in the past, they were kept at home. These children are leading normal lives, thanks to their teachers, parents and fellow school mates.

term expires December 31, 1974
- Emile D. Cote, Associate Member
term expires December 31, 1974

ANNUAL REPORT

of the Selectmen, Assessors and Overseers of the Poor

January 1 to December 31, 1972

The Town of Sanford continues to adopt itself to modern times. We are continually changing in many ways. Modernization of the business areas continues both through private and public programs.

The new face on central square results from completion of Sanford Urban Renewal project and in Springvale we see the positive signs as that Urban Renewal continues. The old shoe shops have vanished and a portion of the lot is occupied by twenty beautiful new units of apartments for the elderly. Some of the older and most dilapidated buildings have been cleared. This project will continue in 1973 with the positive aspect of new construction.

The most visible change in Sanford we believe to be in residential development. The 34 unit high rise became fully occupied and its effect can be seen reflected in the smiles and words of many of our elderly. In the private sector we see new apartment buildings at both ends of town being occupied and the large development at Sanford moving fast to completion. The single home growth can be seen in the Mount Hope area, Route 99 development and Weeman Street area of Springvale.

The work of revaluation approaches its climax with the goal of July 1, 1973 as the completion date including the hearings for all those who wish. The work on the comprehensive plan and workable pro-

gram for Sanford is continuing with five preliminary reports having been issued, and work is now progressing with use of a 26 member committee representing all phases of interest.

Sanford took a large step in 1972 when they faced up to the need of more industry and with courage appropriated a quarter million dollars for money to match federal funds for development of an industrial park. We have filed the preliminary application.

Education in Sanford is still viewed as priority and we continue to hold a high place in all facets as compared to the State in general. We welcomed a new School Superintendent in 1972 and look forward to his capable abilities working for us.

Your Selectmen have looked to the future in their thinking in 1972. The following items are either working or in development processes:

1. Creation of Airport Advisory Committee.
2. Plans for possible consolidation of Highway and Engineering divisions into a public works department.
3. The introduction of an incentive system on rubbish removal and its extension to the whole town.
4. Study of and working on corrective action for the traffic through the central square.
5. The proposal and continuing work towards long range planning for airport use and improvement.
6. The change in work hours of Fire Department.

Sanford has been fortunate in 1972 to have the benefits of approximately 16 employees fully funded by the Federal Government. This program has enabled us to have trainees in the Building Inspectors' and Engineers' offices, assistants in the clerical departments, social service field, custodial work at the school, housing authority and Camp Waban, also maintenance at

the airport and labor, mechanic and drivers in the Highway Department. Sanford also received its first Revenue Sharing, both State and Federal, which will enable us to do many things, both desirable and necessary without the excessive increase of the tax rate.

We, as Selectmen, are ever mindful of our duties and obligations to the people of Sanford. Our job of administration would be impossible without recognizing with thanks the devotion and pride all employees take in their work. We must not overlook the able assistance of many citizens on various boards, the Warrant Committee and numerous Study Committees. Their service without fee is invaluable.

We, the Selectmen, look forward to 1973 as having the possibility of the greatest progress ever.

Respectfully submitted,

J. RAYMOND NADEAU

PAUL L. GARVIN

NORMAN S. HALL

PROTECTION OF PERSONS AND PROPERTY
REPORT OF THE BOARD OF ENGINEERS
SANFORD FIRE DEPARTMENT

January 1, 1973

To the Municipal Officers of the Town of Sanford:

The Sanford Fire Department is maintained by the Town of Sanford for the protection of persons and property against fire. The Fire Department works out of two stations, one in Sanford, and one in Springvale, each of which is manned 24 hours daily.

The Sanford Fire Department personnel is composed of: one (1) Fire Chief, one (1) Chief's Administrative Assistant, twenty-seven (27) Permanent Firefighters, and sixty-six (66) Call Men. The officers of the call company include: four (4) Assistant Chiefs, seven (7) Captains, and six (6) Lieutenants.

The Permanent Firefighters work a fifty (50) hour work week which maintains both the Sanford and Springvale stations. There are three (3) men on duty in Springvale and five (5) men on duty in Sanford at all times. There is an officer in charge of each station at all times.

Training

Firefighter training is conducted on a voluntary basis through the efforts and interest of the officers and men. The performance of each man is evaluated every six (6) months by the officers in charge of each shift. Each new employee is placed on probation for eight months during which time he is trained to become a permanent firefighter. Fair and competitive examinations are given at the close of each calendar year for those who are eligible for promotion.

Equipment and Apparatus

The Sanford Fire Department recently obtained a new 100 foot aerial ladder truck which replaced the 1947 ladder truck the department was using. Presently the Fire Department has the following apparatus:

- Two (2) pieces of aerial firefighting equipment
 - One 100 ft. ladder truck (1972)
 - One 70 ft. aerial platform truck (1963)

PROTECTION OF PERSONS AND PROPERTY

Four (4) front line pumper trucks

Two 500 gallon per minute pumpers (1943, 1964)

Two 750 gallon per minute pumpers (1951, 1962)

Four (4) forest fire or brush firefighting trucks

Three (3) four-wheel drive tankers (1941, 47, 54)

One (1) ten-wheel drive tanker (1954)

Two (2) jeeps (1947, 1951)

Two (2) 14 foot boats with motors

One (1) antique truck (500 gallon per minute, 1935)

One (1) chief's car (1970)

A 1961 tank truck is being rebuilt to replace the 1947 tank truck. All maintenance and repair work on the apparatus is done in the fire station. The average age of the apparatus listed above is 18.7 years.

Fire Prevention

The Sanford Fire Department has one Fire Prevention Officer who gives lectures to public schools, civic organizations and church groups. These lectures include discussion of fire causes and hazards which are commonly found around the home. The Fire Prevention Officer also conducts demonstrations showing spontaneous combustion and home fire extinguishment. He also explains the need for home fire escape plans and assists homeowners in devising their own plans when asked.

Ambulance Maintenance

The Sanford Fire Department maintains an ambulance for the Town of Sanford. The department has 20 persons (19 men and 1 woman) licensed by the State Board of Health and Welfare as ambulance attendants. The ambulance made 624 calls in 1972 and traveled a distance of 7,297.2 miles. There were 22 false ambulance calls in 1972.

Ladies' Auxiliary

The Ladies' Auxiliary has been very active and helpful at both stations during 1972.

PROTECTION OF PERSONS AND PROPERTY

We wish to express our appreciation for the help and cooperation that we have received from all of the town departments and the many people who have assisted us during the year 1972.

Respectfully submitted,

GEORGE E. DRISCOLL
Chief, Sanford Fire Department

TO THE MUNICIPAL OFFICERS OF THE TOWN OF SANFORD, MAINE

Gentlemen:

I hereby submit my annual report on the activities of the Sanford Police Department for the year 1972.

The past year did not include any new equipment or programs being initiated into the Department due to a 16% cut in the requested appropriation, therefore, we only could replace the worn equipment as it was needed.

Personnel

The following changes in personnel occurred within the Department during the year:

Resigned:	1	Patrolman
Recruited:	1	Patrolman

Training

Most all the Officers within the Department attended some sort of outside training program during the year. The following breakdown is of outside training schools attended by members of the Sanford Police Department.

School	Duration	No. of Officers
Basic Police Academy	6 wks. ea.	2
Command Training Institute	3 wks. ea.	2
Instructors School-Casualty Handling & Extrication	1 wk. ea.	2
NEACP Manager Training Institute	1 wk.	1
Police Supervision School	1 wk. ea.	2
Drug Study Course, Yale Univ.	2 wks.	1
Dispatchers School	1 wk.	1
Accident Investigation School	3 wks. ea.	2
Advanced First Aid Instructors Course		2
Multimedia First Aid Course		2
Emergency Extrication & Casualty Handling Course		1
B.N.D.D. Drug School		2
F.B.I. Firearms & Instructors Training School		1
Police Traffic Services School		2
F.B.I. Management Course		1
Defensive Drivers Instructors Course		2

PROTECTION OF PERSONS AND PROPERTY

Alcohol Safety Action Program School 2

College Credit Courses taken by the Officers:

Rules of Evidence	4 Officers
Criminal Law Course	2 Officers
English Composition	1 Officer
Criminal Investigation	1 Officer

In-Service Training Courses attended by the Officers:

Outlaw Motorcycle Gangs	Laws relating to Liquor
Police Communications	Youth Police Relations
Prisoner Transport	Suicide Behavior
Civil Disturbance	Drugs & Narcotics
Investigations & Interviews	

The nomination of one Officer to attend the F.B.I. National Academy in Washington, D.C. is outstanding for the Sanford Police Department.

Library

The Department Library continued to add new books and subscriptions pertaining to Law Enforcement practices for the training of Officers.

Specialized Firearm Training

The Sanford Police Department continued to maintain their high standard of marksmanship in 1972, when two Reserve Teams, consisting of 10 members, received medals for 1st and 2nd place in the Police Pistol Matches. Two Regular Officers took 1st and 2nd place in the Sharpshooters Division in the Police Pistol Matches in Thomaston, Maine.

The Sanford Police Department can be considered the best equipped and the best trained Department in the area of Firearms. In 1972, members of the Department molded and reloaded 18,000 rounds of .38 cal. ammunition. Firearm classes for all Reserve members and qualifying rounds for all members were conducted for the year.

Juvenile Program

1972 saw a continuation of the Juvenile Program started in 1971, with continued success.

A part time Juvenile Officer conducted Police relation programs at the Junior High School.

The program consisted of five (5) sessions conducted over a ten (10) month period. The subjects consisted of Informational and Safety Talks. After the regular sessions were held, many of the students stayed over to hold "Rap" ses-

PROTECTION OF PERSONS AND PROPERTY

sions with the Officer, expressing many views and interests in today's Civic affairs. About 200 students took part in this informal program and expressed a sincere interest. A total of 50 hours was devoted to this program and will continue into the following year.

Several talks were also given to different Civic Organizations on Juvenile Problems.

Public Relations and Safety Education

As requested, Members of the Department filled speaking engagements for many groups throughout the year. Officers attended public and parochial schools and instructed students in both public relations and good safety practices.

"Rock and Roll, the Safety Patrol" was one of the films shown the students. This film emphasized pedestrians crossing the street in a safe manner.

Safety pamphlets were given out to the students.

Bicycle registration programs also continued through the year of 1972, with 2,597 bicycles being registered and inspected. Bicycle Safety programs also reached the elementary grade students in all public and parochial schools. Films relating to child safety and safety practices for grade students were also shown by the Department.

1,937 students were instructed in these safety programs.

During the school year of 1972, 125 students from elementary schools and Indian Guide, visited the station.

As always, the station was open to the general public for tours, conducted by members of the Department.

Service and Maintenance

125 traffic signs and 150 sign posts were installed new and on a replacement basis by the sign maintenance section of the department. A total of 55 manhours was devoted to making up the signs and installing during the year.

All equipment during the year was maintained and kept in good shape due to the efforts of all the members.

The department underwent a much needed face-lifting during the year 1972. Members of the department spent off-duty hours painting the interior walls and keeping the cramped quarters in the station well maintained.

The traffic markings on Sanford and Springvale streets were also done by members of the department during the year.

PROTECTION OF PERSONS AND PROPERTY

Traffic Accident Summary is as follows:

Major accidents consist of property damage of \$200.00 or more and/or personal injury. Minor accidents consist of property damage of under \$200.00 and no personal injury. The previous year 1971 is also submitted in order that a comparison can be made with this report for 1972.

Total Offenses Known to Police (Criminal Only)	1209
Total Offenses Solved by Arrest or Other Means	681
Total Offenses Still Under Investigation Unsolved	528
Unfounded Reports	21
Incidents Other Than Criminal Reported	233

Of the total number of offenses known to police in 1972 (1209), 660 were clered by arrest or by other means. 21 were unfounded reports. This represented that of the total number of offenses known to police 43.7% were solved.

I wish to thank many for the assistance and cooperation received from all departments within the town during the year 1972.

Your interest, assistance, cooperation in the past year is deeply appreciated and sincerely desired for the future.

Respectfully submitted,

JOHN C. PRIDE

Chief of Police

Sanford Police Department

REPORT OF THE BUILDING INSPECTOR

CHANGING SANFORD

Changing Sanford can be interpreted in many ways, depending upon the person making the assessment. The Building Inspector's office can view it from the number of permits issued to do several things in the construction field covering all phases. The Building Inspector's report shows the number of permits for all categories.

In the past five years, many changes have come about in the residential, commercial and industrial areas.

In-town Sanford has been the area of greatest change. Urban renewal has eliminated many of the older units and improvements made to some of the remaining ones makes a great change in the area.

The area around the Grant Plaza has undergone a vast change—apartments, single houses in the Weyland Development, commercial units such as Gendron's, etc.

Route #99 is being developed very rapidly, and will create an impact on the Town in general, because of all services required.

Urban Renewal in Springvale will change the physical appearance greatly and eliminate many hazardous units in the compact area.

Pleasant Acres in Springvale will enhance the area around Weeman and Sherburne Streets. The housing for the elderly on Bridge Street was a welcome improvement in more ways than one.

Red Coat Lane off of #202 Mount Hope Road has added attractive home sites in the area.

The proposed recreational trailer camp site in South Sanford on #109 near Branch Brook will be an added service to the public, bringing more spenders to the Sanford area.

Outer High Street and New Dam Road and #4 road area have trailer parks located there, the Estes Pond area including Tall Pines Development is changing rapidly.

Projected projects being talked about and questions asked of this office indicate more activity in the future in many fields of endeavor.

PROTECTION OF PERSONS AND PROPERTY

This office feels that Sanford should be very proud and happy about what has and is happening to the entire Town in relation to change and growth.

I would like to thank the administrative staff for their help to this office and to Ray Caron who has done a very complete task as an assistant in this office, a very special Thank You.

Respectfully submitted,

FORREST L. PILLSBURY

Building & Housing Inspector

REPORT OF THE WIRE INSPECTOR

December 21, 1972

From: Donald H. Gagne, 1972 wiring inspector
To: Board of Selectmen
Subject: Annual Town Report on Town-owned property and buildings, in regards to the electrical wiring and electrical apparatus

The below buildings were checked and inspected and to the best of my knowledge the following discrepancies were found:

- 1 **Springvale Town Hall**—Open wiring on service entrance, oversize fuses.
- 2 **Springvale Fire Station**—Extension cords being used. Extension cord wrapped around conduit. Also 30 amp. fuses in upstairs panel.
- 3 **Lincoln School**—Low voltage wire in boiler room loose. 300-watt bulb being used without shield.
- 4 **Hamlin School**—Extension cord in cellar loose. Low voltage wire dangling. Cover missing on bell system.
- 5 **Sanford Town Hall**—Extension cords used all over the building. 30 amp. fuse being used throughout the building. Ext. cord wrapped around pipes. Wiring exposed at least six places throughout the building. Low voltage wires and service wiring afloat and loose. Low voltage wiring and reg. wiring covers missing afloat. Bare wires all over building. This building is in bad need of electrical repairs.
- 6 **Sanford Fire Station**—Good condition.
- 7 **Town Farm Dwelling and Wood Shed**—Discontinued.
Barn—
Tool Shed—
Chicken House—
- 8 **Edison School**—Good condition.
- 9 **Roosevelt School**—Extension being used in class rooms. Also undersized wire being used in range receptical.

PROTECTION OF PERSONS AND PROPERTY

- 10 **Longfellow School**—Torn down.
- 11 **Emerson School**—Good condition.
- 12 **Middle School**—South side feeder panel overloaded.
- 13 **New Sanford High School**—Good Condition.
- 14 **Lafayette School**—30 amp. fuses in panel, extension cord being used. Low voltage wiring loose and afloat.
- 15 **Hawthorne School**—Loose wiring outside. Telephone wire hanging over main electrical board.
- 16 **Town Garage**—Good condition.
- 17 **Cemetery Tool House**—Good condition.
- 18 **Stone Crusher**—Disconnected.
- 19 **Store House**—Good condition.
- 20 **Goodall Memorial Library**—Good condition.
- 21 **Mercantile Building**—30 amp. fuses in several panels. Extension cords all over. Wires hanging all over. Loose wiring and not terminated.
- 22 **American Legion Home**—Wall cases afloat, loose wiring.
- 23 **Field Service House**—Good condition.
- 24 **Band Stand**—Satisfactory.
- 25 **Joseph Carpenter Field House**—Broken glass fixture outside. Loose telephone wire.
- 26 **Sanford Incinerator**—Old One—Discontinued.
- 27 **Wood Shed**—No wiring.
- 28 **Tool House**—No wiring.
- 29 **Sand Shed**—No wiring.
- 30 **Salt Shed**—No wiring.
- 31 **Sanford Memorial Gymnasium**—Wiring on stage and lighting dimmer very dangerous for fire, not properly installed.
- 32 **New Town Farm**—Good condition.

PROTECTION OF PERSONS AND PROPERTY

- 33 **Junior High School**—Boiler room heater control to be wired permanently.
- 34 **Old Vocational School**—Tool room light fed by extension. Intercom wire should be in raceway.
- 35 **New Sanford Incinerator**—New installation was not done according to code and should be changed and modified to specifications.

I find buildings requiring janitors to be very well kept, and wiring specifications are met to the best of their ability. Janitors should be told not to use over 15 amp. time delay fuses unless such circuits are approved by a qualified and licensed electrician. All motors over 1 hp. should have a magnetic starter with proper heaters.

In all my travels, the Sanford Town Hall is by far the worst wired building in town. This building needs a great deal of repair.

All buildings not being used or condemned should have the meters disconnected.

If any further information is needed in regards to this report please feel free to contact me.

Yours truly,

DONALD H. GAGNE

HEALTH AND SANITATION
REPORT OF THE
HEALTH OFFICER FOR THE YEAR 1972

February 9, 1973

To the Selectmen, Town of Sanford, Maine

As Health Officer for the Town of Sanford for the year of 1972, I herewith submit a report of health activities during the current year.

Taking care of all vagrants and itinerants who hit town and need care.

Emergency commitments at request of police or selectmen.

Exams for fitness to work at request of selectmen.

Health calls—tenants about questionable conditions of their rents—cleanliness—sewerage—heat—water.

Daily conferences with town nurse as to problems arising with patients receiving town help. Caring for same when indicated.

Supplying drugs for patients receiving town aid.

Writing of prescriptions for town and patients through town nurse.

Examine patients at request of selectmen and/or town nurse.

Appointment of plumbing inspector—receiving plumbing complaints and investigating same and/or referring them to plumbing inspector.

On call for town and itinerants at request of selectmen or town nurse at all times.

Telephone advice to anyone calling—these are numerous due to Health Officer classification in phone book.

Receiving and reporting to Augusta Bureau of Health all contagious disease cases reported.

HEALTH AND SANITATION

Buying drugs directly from pharmaceutical houses and utilization of sample drugs.

Answering inquiries concerning health inoculations for overseas travel. Examination and stamping of inoculation report for overseas travel.

Investigating "health hazards" (unhealthy living conditions, unsanitary houses, poor nutrition, maltreated or illfed and cared for children) at request of selectmen or town nurse.

Exam of elderly living alone—at request of selectmen or town nurse—to ascertain if mentally competent to continue living alone.

Respectfully yours,

A. S. LINCOURT, M.D.

Health Officer

ASL:srh

HEALTH AND SANITATION**HEALTH AND SANITATION****REPORT OF THE****COMMUNITY HEALTH ASSOCIATION, INC.—1972****FIFTIETH ANNIVERSARY****1922 - 1972**

Nostalgia seems to encompass my thoughts as I begin the Fiftieth Annual Report of our activities. Let me reminisce a bit and share with you the highlights of our "career" found in the meeting notes, reports, and scrapbooks we cherish for ourselves and our posterity.

IN THE PAST . . . OUR HERITAGE

- 1922** The Sanford-Springvale Health Association was established as an outgrowth of the York County Tuberculosis Association. Two nurses were employed to do welfare work school and bedside nursing. After a short time, a Ford automobile was donated by Mrs. Lela Goodall Thornburg.
- 1923** Early reports contain many interesting statistics and accounts of various activities, such as the beginning of our present-day Pre-School Immunization Clinics.
- 1925** The town appropriated \$2,000.00 for the work of the Association.
- 1930** Miss Laura E. Tabor arrived from Boston to direct the program, a position which she held for over thirty years.
- 1934—** Drastic curtailment of services due to lack of funds.
- 1936**
- 1936** Name "Community Health Association" chosen because the public had tended to regard the program as a Welfare Service. It was hoped the new name would convey the community-wide scope of the work and its educational aspect.

The "Health Camp" was established at High Pine. Each summer for 27 years an average of 35 children attended during the seven-week period.

HEALTH AND SANITATION

- 1938 The Association was incorporated.
- 1939 Health Camp buildings were purchased.
- 1940- Program continued, with variations as indicated. Miss
1952 Tabor functioned as school nurse and supervisor of Community Health Association.
- 1953 Tuberculosis Chest X-Ray Clinics were held in conjunction with Goodall Hospital.
- 1954 Foot Clinics held with Dr. Landers; Pre-Natal classes in cooperation with the hospital; "Preventive Health Program" in Parochial schools.
- 1956 Health Unit set up at Sanford High, and at first attended daily by CHA nurses.
- 1961 Miss Tabor became full time school nurse, leaving only two nurses working for Community Health. Hazel L. Drown, R.N., became supervisor.
- 1962 Miss Tabor retired. Hazel Drown became school nurse and Pauline McLeod, CHA Supervisor.
- 1964 "Christmas Clearing House" project started to prevent duplication of giving through working with Welfare Nurse Inez McCann, local organizations and individuals. Mrs. Anne Kornetsky was then, and is now, the devoted Chairman.
- 1966 Pauline McLeod resigned, Marolyn P. Roberts, R.N. became Executive Director.
- In July, we became one of the first agencies in Maine to be certified as a Home Health Agency under Medicare.
- 1967 Out-patient Laboratory Blood Testing Service instituted in cooperation with the hospital. We were the first VNA in the state to provide this service, as far as we can ascertain.
- 1968 Health Camp buildings sold.
- 1969 Nursing care increased 64%, necessitating addition of half-time nurse, plus part-time secretary. Parochial School Program expanded to include physicals and eye exams; Flu Clinics for Senior Citizens.
- 1970 First Aid Station set up and staffed at Acton Fair.

HEALTH AND SANITATION

- 1971** New programs added: Audiometer Testing in Parochial Schools; "Lazy Eye Blindness" clinic in cooperation with Lions Club; Cancer Screening Pap Clinic at the hospital; Blood Sugar and Blood Pressure Clinics at the Trafton Center.
- 1972** The town appropriated \$5,400.00 for our work. The remainder of the budget is realized from fees, bequests, donations and trust funds. CHA hosted Health Council Institute; sponsored 15th Annual Nurses' Institute directed by Dr. Bacon—this year on "Pharmacology"; held an "open-house" Tea in celebration of our 50th Anniversary. Formal name of "Well-Aging Clinic" given to collective health programs co-sponsored by YMCA and CHA; Hearing clinics added, as well as glaucoma screening provided by Drs. Robert Vigue and Kenneth J. Kornetsky.

IN THE PRESENT . . . OUR OBJECTIVE

As stated in the By-Laws, we are to "provide the residents of Sanford and Springvale with skilled nursing, and other therapeutic services by contract, for the ill in their homes or places of residence, plan activities aimed at the reduction of incidence of various disease, and promote individual and public health through care, clinics and health education."

To achieve this goal, one part-time and two full-time nurses are employed, and physical therapy is available by contract with John Caramihalis, a Registered Physical Therapist. We have been able to serve more individuals during the past year because of direct referrals from the new Goodall Hospital Discharge Planning Coordinator.

"Activities aimed at the reduction of incidence of various disease" include the Pre-School Immunization Clinics, those offered at St. Thomas Parochial School, and Flu Clinics at Trafton Center. Dr. Armand S. Lin-court maintains faithful attendance at these activities. We also participate in the statewide Tuberculosis and Diabetes program.

Keeping in mind the commitment to "promote individual and public health through care, clinics and health education", we focus our attention on the "Well-Aging Clinic", with the hope of adding even more screening procedures as time goes on. Health education in many areas is provided by means of counseling, distribution of pamphlets and planned programs.

We also honor our responsibility for providing health education for the staff, through attendance at various

HEALTH AND SANITATION

meetings, workshops and Extension courses; also, participation in local, county and state professional organizations.

With the focus on providing maximum benefit from our services to the community, all programs, under the guidance of our Medical Advisor, Melvin Bacon, M.D., are geared to "Wellness" rather than "Illness".

The requirements for Medicare certification become more demanding each year in the areas of nursing, record-keeping, evaluation and policies. This is where we see the "shining light" of our nurses, Hazel E. Flagg and Charlotte A. Young, and Secretary Shirley Austin. The effort they expend and the service they render is most instrumental in our remaining a certified agency.

IN THE FUTURE . . . OUR CHALLENGE

Progress is the watchword in the field of health. We must be ever mindful of opportunities to serve—in the home, school, housing complex or industry.

The volunteer Board of Directors will meet monthly and continue to share unselfishly, as they have in the past, of their time and expertise in directing our future. Not only must they be familiar with implementing necessary changes in policies and techniques, but also in areas of organizational and administrative management, as well as Regionalization and Revenue Sharing.

The future holds great promise of challenge; for seizing opportunities in the realm of prevention, as well as exploring possibilities in the area of expansion.

And so, we look forward to that future . . . with enthusiasm for providing continued service to our community.

Respectfully submitted,

(Mrs.) Marolyn P. Roberts, R.N.

RECREATION**REPORT OF THE ACTIVITIES OF THE
SANFORD PARK COMMISSION — 1972**

In 1972, we continued our cutting of diseased trees, the feeding and pruning of trees, and the planting of new shade trees throughout the community. We continued our skating rink and added new lights to the rink. We also continued the growth of our swimming program at the Springvale Recreation Area.

Our eight week band concert series at Gowen Park were well received by large crowds on Sunday evenings.

In 1972, Goodall Park saw maximum use from April to November. The groups included the Sanford High School freshmen, junior varsity, and varsity teams. It was also used by Nasson College, the Sanford Junior High, American Legion Baseball, the Babe Ruth League, and Midget Football.

Our parks and playgrounds had very good to fair attendance during our eight weeks program. The tennis program continues to grow and improve. We repaired one of the Springvale tennis courts and we hope to add new tennis courts by the 1973 season.

We want to keep improving our program and add new ones. Any suggestions from all citizens of Sanford-Springvale would be welcomed.

Respectfully submitted,

ROBERT J. BLOUIN

Chairman

Sanford Park Commission

**REPORT OF THE
SANFORD HISTORICAL COMMITTEE
FOR 1972**

We continue to receive interesting and important gifts to our collection of material relating to the history of the town. Since most townspeople are unaware of the extent and variety of our collections we are contemplating holding an Open House in 1973 to give the public an opportunity to see what they own.

During the year we have turned in to the Town Treasurer \$192.00 from the sale of town histories. This brings to \$7,918.93 the total so far turned over to the town from the sale of this book.

ALBERT L. PROSSER

TOWN OF SANFORD, MAINE

CERTIFICATE OF AUDIT

March 15, 1973

BOARD OF SELECTMEN
Town of Sanford
Sanford, Maine

Gentlemen:

We have examined the Statement of Financial Condition of the Town of Sanford, Maine as of December 31, 1972 and the related statements of general fund surplus and departmental operations for the year then ended.

Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying Statement of Financial Condition and related statements of general fund surplus and departmental operations present fairly the financial position of the Town of Sanford, Maine at December 31, 1972 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

PAUL A. LEROUX, JR.

No School Notification

The "No School Signal" will be sounded only on those occasions when concern for the pupils makes it imperative.

Parents are urged to keep their children at home, even when school is in session, if road conditions in their locality are particularly hazardous.

On the occasions when the "No School Signal" is sounded, there will be no school for all pupils for the entire day.

Official notification will be given whenever possible over the following radio stations: WSME, Sanford; WWNH, Rochester, N. H.; WSCH and WGAN, Portland, from 6:20 a.m. on.

The fire alarm will sound four times at 6:45 a.m.

When it becomes necessary to suspend the afternoon session of school, the signal will be given at 11:00 a.m.

EDUCATION

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Charles A. Beattie, Ph.D.

Citizens of Sanford:

It is a pleasure to make my first annual report since assuming the office of Superintendent of Schools in July, 1972. During this short period of time I have been impressed by the interest in Education displayed by the citizens, the dedication to excellence by the members of the School Committee, the high degree of professionalism of the staff, and the seriousness of purpose of the student body.

In this first report I will submit a "Five Year Plan" that I have developed with the help and guidance of the staff of the Sanford School Department.

A FIVE YEAR PLAN

Background Information

The first requirement one must follow in order to develop a future plan is to present a philosophy consistent with the thinking of the community, the school committee, the complete staff, and the students. The following philosophy has been presented to the School Committee and the staff. Through this report we hope to receive some input from the community and the student body.

The School Committee believes that each person should be accepted into the program as he is, that he should be provided with a stimulating environment and opportunities for learning experiences designed to promote behavioral development that will affect continuing satisfactory adjustments to life.

In the practical application of this philosophy, opportunity shall be provided each person within the limits of his capacity.

1. To obtain an education, considering his personal interests, abilities, and needs.
2. To learn citizenship and democracy emphasizing interest and participation in world and community problems.
3. To develop emotionally, morally and socially so that he is increasingly able to cope with life's problems.

EDUCATION

4. To develop a healthy body.
5. To develop cultural and aesthetic appreciation.

Although the above philosophy is broad and all encompassing each individual school and subject matter area should develop objectives and goals of a specific nature to help students attain their full potential. Therefore, this five year plan will be concerned with three basic problems affecting the total school system—Facilities, Programs, and Personnel.

Facilities

1. The Roosevelt School built in 1910 houses twelve kindergarten classes. This building was renovated in the summer of 1972. Although the school is on a limited site, with students attending only a half-day session, it appears at this time that the building will take care of our needs for the next five years. The present enrollment is 292.
2. The Edison School built in 1923 houses eight classes for grades one through three. This building is in good repair and should be available for use for many years. The present enrollment is 187.
3. The Emerson School built in 1901 houses eight classes for grades one through three. This building is in safe condition but should be phased out some time in the near future. The present enrollment is 205.
4. The Hamlin School built in 1914 houses two classes at the present time—one third grade class, one special class, and a home base for our learning disability teacher. The building is in poor condition and should be phased out as soon as possible.
5. The Hawthorne School built in 1932 houses two special classes. This building because of age and type of construction should be phased out as soon as possible.
6. The Lafayette School built in 1939 houses eight classes for grades one through three. This building is in good condition and should continue to serve the community for many years. The present enrollment is 184.
7. The Lincoln School built in 1923 houses eight classes for grades one through three. This building is in good condition and should serve the area adequately for many years. The present enrollment is 183.

EDUCATION

8. The Middle School built in 1940 and renovated in 1969 houses grades four, five, and six. This building and the Memorial Gym contain 31 regular classrooms, 5 special rooms, a gymnasium, and a cafeteria. The buildings are in excellent condition and should be utilized for many years. The present enrollment is 756.
9. The Junior High School built in 1959 and the renovated Annex houses grades seven and eight. These buildings contain 17 classrooms, 7 special rooms, a gymnasium and stage. The buildings are in good condition but the student enrollment has approached the critical stage. The present enrollment of 617 students exceeds the building capacity by over 150 students. The Junior High was built with the idea of possibly adding classrooms in the future. The School Building Needs Committee should study this problem in order to make a recommendation to the town in the near future.
10. The Senior High School built in 1970 houses 21 regular classrooms and 39 special use rooms (shops, labs, library, cafetorium, and gymnasium). The building is in excellent condition and has the capacity for expansion. The present enrollment is 1231.

Summary—Facilities

The Hamlin, Hawthorne, and Emerson school buildings should be turned over to the town in the near future. To take care of the students presently attending these schools, and to provide space for new students entering the public elementary schools, a new school building should be constructed in the South Sanford area.

New classrooms and special purpose areas should be added to the present Junior High building. If the addition contains the space necessary to house the present and future enrollment projections for the seventh and eighth grade students the Annex could be converted to office and storage space for the central staff and maintenance personnel.

The present School Building Needs Committee will study the present and future needs of the Town of Sanford and make recommendations to the citizens on or before the 1973 Annual Town Meeting.

Programs

Elementary

All kindergarten students attend the Roosevelt School. The students are divided into twelve groups with six classes meeting in the morning and six classes meeting in the after-

EDUCATION

noon. This program has been in effect for only four months. However, we hope to evaluate this plan before the end of the school year and report the findings to the School Committee and the citizens as soon as the study has been completed.

Students in grades one, two, and three attend our neighborhood elementary schools. Although the present organization is structured around the self-contained classroom some minor changes are being made. Teachers are working together developing individual study packets, studying the open classroom, coordinating the curriculum, and trying new techniques in the classroom. With the availability of specialists in art, reading, social services, and learning disabilities the students are receiving help in these areas. However, the accessibility of specialists in music, physical education, speech, and mathematics at the elementary level will be explored in the Personnel section of this report.

This spring a number of Inservice Courses will be offered locally to help the teachers to individualize their programs. Courses in Individualized Instruction, Multi Media Instruction, Data Processing and Diagnosing Students with Learning Disabilities will start some time in February. The last course will be offered with the cooperation of the York County Counseling Service with Dr. Klinger as coordinator.

Middle School

Students in grades 4, 5, and 6 are housed in the renovated high school building. Most of the fourth grade students continue in a self-contained classroom. However, they are introduced to French, art, music, and physical education on a regular scheduled basis. Some of the teachers have started to individualize their programs and a few teachers are working together as a team.

Students in the fifth and sixth grades attend classes that are departmentalized. Not only are the students receiving instruction from professionals with strong majors in the specific fields but in the social studies area and reading, students are working on individual programs geared to their particular needs and weaknesses. Some interest has been made by teachers to individualize the mathematics and science programs.

This building houses our multi-media center for the elementary schools. Under the leadership of the Librarian and Elementary Supervisor all materials and equipment are coordinated for Kindergarten through grade six.

The Reading Supervisor works with the Middle School students and coordinates the Title I Remedial Reading Program for the elementary grades. Each week the members of the reading staff, the social worker, and the learning disa-

EDUCATION

bility specialist meet and discuss problems and programs. Through this cooperation and coordination the students are receiving outstanding help.

A Drug Education Inservice Course was offered at the Middle School this fall. This program was coordinated by the Elementary Supervisor and the York County Counseling Service.

Junior High School

A building constructed to accommodate 450 students at the seventh and eighth grade levels presently houses 600 students. Although this building is extremely overcrowded a traditional program with departmentalization is in operation.

Industrial Arts and Home Economics are required courses for the first time at this level. Students are grouped according to ability and may move up or down depending upon achievement. Although research does not justify this grouping arrangement some progress toward individualization has materialized.

Some of the teachers are working together even though we do not have department coordinators. This building has one principal to administer the complete program. Because of the size of the student body, the number of staff members, and the unique qualities of the students at this level additional help must be provided.

Special Class Programs

Two trainable classes are housed at the Hawthorne School, one educable class is at the Hamlin School, one educable class is at the Middle School, and two special classes for students needing extra help are at the Middle School. Wherever possible students are integrated into a regular program for part of their instruction. Although we are fortunate to have dedicated teachers the need for more staff and programs for the special student is apparent. At the present time we have nothing for the emotionally disturbed, very little for the gifted child, and we are just starting to work with the young adult who needs saleable skills in our work-a-day world.

This area of special education needs a complete evaluation and some time in the near future we hope to present a long range program in this particular field.

High School

The present high school complex provides a real opportunity for the youth of Sanford to prepare for the future. Many communities give lip service to the concept of compre-

EDUCATION

hensive education and yet the Town of Sanford can proudly say we do have a comprehensive high school. Almost three out of every four students in the high school enroll in one or more of our vocational courses. With forty-five to fifty percent of our graduates going on to further education each year it is interesting to note that the majority complete their goals. This is above the national average and must indicate that the schools and parents must be doing something right.

The language arts program is going on an elective one semester program this spring. Instead of students taking English 3 or 4 they will be selecting Journalism, poetry, Maine authors, short stories, creative writing and a choice of thirty others. This same type of program will be developed in the social sciences in the future.

Thus, elective courses, mini courses, independent study, and advanced placement or college level courses will highlight the Sanford High School curriculum. These will be offered on a departmental and inter-departmental basis and taught with the latest techniques and materials available.

Large group instruction, small group instruction, seminars, and independent studies will be commonplace in five years. Students teaching students will also be a well accepted phenomenon. Open campus, early graduation, and career education will be a part of the school program in the future.

Community College and Adult Education

At the present time we have one of the best adult education programs in the state. However, with the appointment of a full-time director we anticipate greater activity in the near future. Basic education will be introduced (programs for people with less than an eighth grade education) increased offerings for enrichment and hobby interests, and the start of a two year college degree program.

In the near future we hope to announce a definite arrangement with a College with degree granting privileges.

Summary—Programs

Research will continue to play a more important role in curriculum development in the years ahead. Principals, Department Heads, Supervisors, Coordinators, and staff members will be expected to demonstrate greater sophistication in the ways and findings of research in their respective areas. Need, relevancy, and research will be the basis for curriculum changes in the future.

In order to facilitate some of the changes recommended in this section along with alternatives to existing educational

EDUCATION

programs, it will be necessary for the School Committee to consider the establishment of Summer Curriculum Workshops for the staff.

Personnel

At the present time we have a workable teacher/pupil ratio of under 1 to 30. However, in the special areas we are below what is considered minimum for an educational system our size. The following positions are listed not necessarily in the order of greatest need:

Present Staff		Needed staff
Art	3	4
Music	4	5
Physical Education	8	10
Speech	0	1
Learning Disabilities	1	3
Special Class	4	6
Emotionally Disturbed	0	2
Assistant Principals	2	4
Guidance	5	9
Social Worker	1	2
Multi-Media Director	0	1
Library Assistants	2	4
Nurses	3	4
Remedial Mathematics	0	2
Junior High Coordinators ..	0	6
School Psychologist	0	1
School Psychiatrist	0	1

Many changes and additions to the staff will be necessary as we work toward the individualized approach to learning. The complete staff will develop a greater sensitivity to the need for a more humanistic approach to teaching. They will demonstrate greater sophistication in the areas of child and/or adolescent psychology, learning theories, motivation, and educational research. Their understanding of human behavior will be at a much higher level than it is presently. There will be much more "feeling" in the teaching-learning or teacher-student relationship.

Summary of Report

The Hawthorne, Emerson and Hamlin buildings should be closed as schools in the near future; a large addition should be constructed to accommodate the junior high student enrollment; and, finally, a large elementary building should be built in the South Sanford area within the next five years.

In the elementary schools all teachers will be working toward an individualized Instructional Program; the homo-

geneous grouping will continue in some subject matter areas at the junior high but students will be heterogeneously grouped in social sciences, physical education, art, music, home economics, industrial arts, and some English classes with the opportunity for individual projects through student contracts and enrichment programs; and at the high school students will have a complete elective program, early graduation, and the opportunity to participate in an open campus program.

Both the professional and non-professional staff will change and increase in number over the next five years. Administrative help at the junior high and the middle school, help for the students in the art, music, physical education, mathematics, speech, guidance, and special education are but a few of the staff needs to be considered. However, teachers will work as teams with the strong possibility of differentiated staffing receiving serious consideration. Thus, although the number of people employed by the school system will increase the actual cost to the community will not necessarily reflect the increase.

Conclusion

The recommendations and proposals made in this report are the results of the thinking and planning of many people on the staff. A man is the composite of his experiences and his involvement with others. Therefore, I wish to thank everyone who has contributed in some way to my thinking.

The direction the School Committee and the Community decides to take in implementing this Five-year plan could have a lasting effect on the youth of Sanford for many years to come.

We welcome questions or comments from the public regarding this report or the school program. In conclusion, I would like to thank the School Committee, the citizens, the faculty, and the students for their support and understanding.

Respectfully submitted,

CHARLES A. BEATTIE, Ph.D.

Superintendent of Schools

EDUCATION

REPORT OF THE HIGH SCHOOL PRINCIPAL

Enrollment

The opening enrollment in September 1972 was 1273. This represents an increase of 26 students over last year's opening enrollment. The opening tuition enrollment was 94 students, all of whom were enrolled in full or part-time vocational programs. Students were enrolled from Massabesic, Marshwood, Kennebunk, Noble, Wells, Traip and York High Schools. Fifty-six were enrolled as full-time students and 33 as part-time.

Year	Resident	Tuition	Total
Freshman	319	4	323
Sophomore	338	17	355
Junior	291	43	334
Senior	226	30	256
P. G.	5	—	5
	1179	94	1273

Facilities

This is our third year in our new building and it has continued to be a functional and well designed facility. Despite its imposing size its general purpose classrooms are already being scheduled to 96% utilization. Special areas such as specific science laboratories, business machine rooms, the language laboratory and most vocational shops show a lower utilization factor. This is explainable in that they can be scheduled only for specific uses. As our enrollment increases serious thought must be given to new means of program and building utilization.

Academic Program

Few changes were made in our basic academic program this year. Additional sections were needed in most areas negating additional offerings at this time. Vocational offerings were made available to all students by a restructuring of the basic time requirements. At this writing a Junior-Senior English elective system is just now being put in operation.

The Class of 1972 graduated 244 students, a follow-up of which shows that:

- 44% continued their education on a full-time basis
- 43% are employed
- 3% are married
- 6% are in Federal service
- 2% are unemployed
- 2% whereabouts unknown

100%

EDUCATION

Faculty

The present faculty includes 11 new members. We were hard hit by retirement last June when we lost Mr. Francis Topping, long-time Science Head, Mr. Harold Gates, Mr. George Lowd, Mr. Charles Towle and Mrs. Agnes Tibbetts. In addition, three teachers moved, two left education and one chose to continue his work toward an advanced degree. No new positions were added.

Extra Curricular

The Sanford High School cheerleaders, under the direction of Miss Penny Cary, spearheaded a drive for a mini bus. Most clubs and organizations have pledged to this fund and it is hoped that the bus will be available for use by September.

Student exchanges with Biddeford and Westbrook High Schools were held this year by the National Honor Society and the Student Council.

Dramatics, Glee Club, Band, Key Club, FHA, FFA, Pep Club, Ecology Club, Math Club, 0-20 (Librarians) and other groups all had projects and/or productions. The Band exchanged concerts with Falmouth, Massachusetts and produced their usually fine Pop Concert. The Glee Club exchanged with Methuen, Massachusetts and Mrs. Tibbetts directed an excellent production of **"Fiddler on the Roof."**

Sanford High School continues to provide more student dances than any other school known. These dances are open to criticism but they do provide an in-town place for our young people to gather and socialize.

Athletics

The boys' athletic program remains "under fire" at Sanford High School. We have been less than successful in most boys' varsity sports. However, the Cross Country team closed out its best season in many years and the varsity football team finished with a 4-5 record, culminated by back to back wins over Biddeford and Cheverus. The Golf team won their league title and went on to win the Regional Crown at the Gorham Country Club. It appears that there will be new head coaches next year in three of the major sports.

Girls' athletics continue to be highly competitive and equally successful.

An all-out attempt has been made to increase the offerings on the intra-mural level but the turnout has been less than spectacular.

EDUCATION

General

The student body, faculty and staff are commended for their continued cooperation and spirit. The various Booster organizations are especially commended for their untiring efforts on behalf of the students of Sanford High School. Your efforts are greatly appreciated.

My personal appreciation is extended to all who continue to support quality education in Sanford.

Respectfully submitted,

JOHN R. PARKER

Principal

REPORT OF THE ELEMENTARY SUPERVISOR

The enrollment of the eight Elementary Schools as of December 31, 1972 was:

Edison	183
Emerson	203
Lafayette	190
Lincoln	182
Roosevelt	285
Hawthorne	15
Hamlin	44
Middle	757
	1859

This is an increase of 10 pupils over last year. This is the smallest increase since I have been Elementary Supervisor. The enrollment in 1967 was 1654 pupils, so in five years we have increased our enrollment by 205 students.

New teachers this year as follows:

Miss Dollie Hutchins	1st Grade	Edison School
Miss Jean Smith	1st Grade	Edison School
Miss Pauline Dolbec	2nd Grade	Emerson School
Mrs. Suzanne Faulkner	3rd Grade	Emerson School
Mrs. Helen Farnsworth	3rd Grade	Lincoln School
Mrs. Carol Blier	4th Grade	Middle School
Mr. Charles Marshall	Music	Middle School
Miss Annette Tanguay	French	Middle School
Mrs. Evelyn Skimin	Phys. Ed. (girls)	Middle School
Mr. Richard Faulkner	Phys. Ed. (boys)	Middle School

EDUCATION

Mrs. Logan Hurst	Assistant to Mrs. Anna Lou Palmer, Social Worker
Mrs. Elizabeth Caron	Learning Disabilities — All Schools
Mrs. Shirley Caramihalis	Nurse—Middle School
Mrs. Nancy Fuller	Aide to Handicap Children—Edison School

Schools:

The Roosevelt School opened its doors in September to a new Kindergarten Program. This brought Emerson, Edison and Lincoln Kindergartens to one location to join the two Kindergartens that were already there.

Each child through the summer received a letter with their name tag coded the same color as their room they were supposed to go to. This worked out very well for the children and for the bus drivers in bringing the children to school, and returning the child to their own districts or home.

In September Roosevelt School started with 293 children, the enrollment dropped to 283, but is now back to 294.

With all of the Kindergartens in one location, we have pooled all the equipment together, and can share the materials. We find that this will save money in the long run because instead of purchasing six pieces of large equipment one or two will do.

The children are having the experience of meeting other children from all of the districts and are going from their room to another room for their reading and music. Everyone is taking advantage of the large room for the Physical Education Program.

Hamlin School has seen a year of change, both in class level and number of students, as the school system has moved to bring better educational opportunities to its students.

The classes assigned to Hamlin for September were the Primary-Intermediate Special Education Class for the Educable children, which had been there previously, and a third grade class. The third grade class is smaller than most, for a more individualized instructional program. The Learning Disabilities Teacher is based here too, from which she travels to the other elementary schools.

In 1971-1972 there were four second grades at Lafayette School. In 1972-1973 one second grade was deleted and another first grade was added.

With Federal funds from Title II, 106 library books were added to the Lafayette School Library. Also, with these funds a set of child's (primary-age) encyclopedia was added to the

EDUCATION

library. This is Compton's Young Children's precyclopaedia—1971 Ed. Mrs. Joseph McCarty has volunteered to be the building librarian for this year. She reports Friday afternoons.

This year the grades at Emerson School have been changed. The two kindergartens were moved to Roosevelt School leaving room for two more grades. Emerson School now has one transitional first grade, three first grades, two second grades and two third grades.

Emerson School is fortunate in having Mrs. Greer who is present three days a week to aid several children with reading problems. A general improvement has been noted in the classroom performance of these pupils.

The Lincoln pupils are most fortunate in having Mrs. Andre Vermette of the Springvale Library come to their school once a week when she offers a Library Period to the children. Also, Lincoln School has its own library which is operated once a week by volunteer mothers, for which teachers and pupils are grateful.

Hawthorne School, for the second year, is housing the trainable retarded pupils of the former Carpentier Park School. Two of the pupils graduated and are continuing their education at Waban. Another graduated to continue education at Middle School. After the Christmas holidays, with the rehiring of an aide, enrollment was enlarged by three new pupils making a present attendance of 15.

At Hawthorne School noon lunch is planned, bought for, and cooked twice a week. Clean-up after all lunches and janitorial/custodial duties are performed each day. Academic subjects and training sessions are the core of the program aided greatly by educational T.V.

Nasson volunteers, on credit and non-credit status, as well as co-op high school students, help a great deal in giving these students the individual attention they require.

Due to the newness of the education of trainable retardates at the state level—there is no state curriculum for these classes. It is hoped that this can be formulated during the next two years by the faculty of this school for these classes. Routine firmness, and a genuine caring attitude for the handicaps of these children—all aid in reaching the goal of a more satisfying life for them.

EDUCATION

MIDDLE SCHOOL

This year the Middle School has 29 classroom teachers, Music teacher, French teacher, Art teacher every other week, a girls' Physical Education teacher and a Boys' Physical Education teacher. This year with the addition of an instructor for boys' Physical Education, we are able to meet the class size and time requirement per week for grades 5 and 6 as recommended by the State Department of Education.

This is the first year the Middle School has had full time personnel to help students who have reading problems. When additional Title I funds were made available, a teacher and assistant were assigned to the Middle School.

Other innovations which have been adopted this year to meet the needs of individual youngsters are as follows:

Social Studies—Grades 6—The nine sixth grade classes are using Central Progress Labs which allow students to choose areas of study within the sixth grade scope. They are then able to choose the area of their interest and progress at their own speed.

Arithmetic—Grades 5 & 6—This year for the first time we have grouped math students so teachers are better able to meet the needs of individual youngsters.

Science—Grades 5 & 6—Several teachers are working on an individualized program for their Science classes by presentation of the concepts needed at the particular level and then having students work on related projects or experiments individually. As soon as behavioral objectives have been decided this program will be incorporated for all fifth and sixth grade classes.

Learning Disabilities

The Learning Disabilities Program began in September 1972 after the Sanford Public Schools received federal funds. Mrs. Elizabeth Caron Ed.M. was hired as teacher. The program, as accepted by the Special Education Department, provided tutorial help for students of average or above average ability who were prevented from achievement in school because of visual motor handicaps. Fifteen students receive this tutoring, with the twelve most disabled receiving at least one and one half hours per week.

Not a remedial program as operated by the Title I reading staff, the Learning Disabilities Program helps children compensate for or overcome perceptual difficulties that may occur in a normal classroom. The primary objective is to help these children to learn the necessary compensations so

EDUCATION

that in one year's time or less they may profit from regular instruction.

Students in Kindergarten will be screened in January with suggestions made for help for the remainder of this year and admission to the program or re-evaluation this Spring.

Reading

Philosophically, the Reading Program for the Sanford Public Schools continues as during the past few years. The practice of placing pupils at an appropriate level in instructional materials suited to their learning needs and modes is followed. Groupings are flexible with allowances being made for pupils to progress to more difficult level when they are ready.

The series of achievement-reading placement tests developed by the local staff for Grades 3-6 have proven to be a reliable tool for the measurement of skills necessary for success at the next grade level. Since no tool is perfect, these were and are subject to re-evaluation and revision.

Instructional organization has been adapted to the circumstances of individual schools, the structure changing in accordance with pupil needs. Gradually we are working toward a goal of individualization of reading instruction.

In the spring of 1972 the school board approved a proposal to designate the Roosevelt School as the site for a new Kindergarten Program. This proposal was prepared by the Kindergarten staff who had spent several years studying other established programs, researching child needs, and in cooperative planning for meeting those needs. During the summer, the building was renovated in accordance with the plans, so that in September 1972, the Kindergarten children were introduced to a bright, happy learning atmosphere. The program is designed to meet the needs of all children; it is flexible in approach to learning activities and allows the teachers and aides to make efficient use of instructional time and materials.

No reading program can remain static from year to year and continue to serve the pupils effectively. Because of our constantly changing school population and the introduction of new techniques and methods, it is necessary to evaluate, revise, and adapt practices and structures at frequent intervals. This procedure has been followed within the limits of available time.

With the consolidation of the Parochial Schools, we have been able to concentrate even more on serving pupils on a one-to-one basis, or in very small groups—some three days a week rather than two.

EDUCATION

Total number of pupils served—September 1972 to January 1973 are:

Edison	12	Lincoln	11
Emerson	11	Middle	61
Hamlin	11	St. Thomas	12
Lafayette	10		

Total—128 Remedial Reading Pupils

There is a definite possibility that this very important service may be curtailed. Its continuance depends upon the availability of Federal Funds.

A request from parents of pupils in the program during the 1971-2 school year led to a proposal for a summer reading program being submitted by Mr. Kenneth Johnson. State Coordinators of Title I granted funds for this purpose so this program was offered during the month of July 1972. The following specialists were added to the regular staff for the summer program:

- (1) Mrs. Elizabeth Caron, Emotional Problems
- (2) Mr. Steven Thyng, Learning Disabilities
- (3) Mrs. Deborah Kahn, Speech Therapist
- (4) Mrs. Ruth Bentley, Social Worker

Although the original proposal was made on the basis of 36 children, 54 pupils attended one of the two daily one and one-half hour sessions. Many parents have expressed the desire that this very successful experiment be made a permanent part of the total school program. Again, its establishment depends upon the availability of Federal Funds. We sincerely hope these funds will be appropriated and granted.

Achievement and mental ability tests were given last fall to all of our elementary children.

Bussing is one of our main problems because of our bussing from school to school to try and keep the ration under 30 pupils. The Lafayette School is the largest pick-up, over 260 children take the bus there. They go to the Junior High, Middle School, Hamlin, Emerson, Edison and Roosevelt.

We cut out a transitional grade at the Lincoln School because we felt we did not need it this year. We now have two transitional grades—one at Lafayette and the other at Emerson.

More children are taking advantage of the lunch rooms in each school. At the Middle School we serve hot lunches on the average of 500 pupils per day.

EDUCATION

We have a very active sports program at the Middle School. Since we have the use of the Memorial Gymnasium practically all sports can be carried on during the school year. Mr. Faulkner, Mr. Crouch, Mr. Morin, Mr. Metcalfe and Mrs. Skimin work with children in these sport programs. Intra-mural programs are carried on to give every child a chance to take part.

I have enjoyed working with the Superintendent, Principals and teachers—visiting classes, holding meetings and helping wherever possible.

Respectfully submitted,

CLYDE KIMBALL

Elementary Supervisor

Annual Report of Sanford Adult Evening School

The program of Sanford Adult Evening School, the Adult Education Division of Sanford Public Schools is designed to provide basic, vocational, high school and post high school educational opportunities for citizens of the Sanford-Springvale area. In addition, hobby and leisure time courses are provided by the Evening School as part of its responsibility to make available all types of educational opportunities.

A total of 808 students, representing an increase of 188 over last year's enrollment, are participating in the following courses: English, general mathematics, trigonometry, general science, living skills, American History, office procedures, data processing, typing, bookkeeping, high school equivalency, techniques in reading, blueprint reading, basic auto mechanics, advanced auto mechanics, car care for women, machine shop, welding, furniture fabrication, home carpentry, home horticulture, basic electricity, upholstery, men's and women's physical education, macrame, self-defense, folklore, holiday crafts, dog obedience, art, knitting, cake decorating, basic and advanced clothing, basic and advanced square dancing, photography, pollution, new math for parents, crewel embroidery, basic securities and investing, and Americanization.

The entire faculty and staff have attempted to enrich human life through courses and personal contact.

Respectfully submitted,

JOHN E. WEBB, JR.

Director

EDUCATION

REPORT OF SCHOOL HEALTH SERVICE

The role and function of a school health program is to offer supplementary health care to school children with special attention given to hearing and vision because of the obvious relationship to the child's ability to perform in school.

The following procedures are performed by the school's physician, optometrist and nurses—

1. Height and weight—this is done every year on all students
2. Blood Pressure—grades 7-9
3. Examinations of eyes for visual acuity and signs of infection—grades 1-4-7
4. Evaluation of hearing with a puretone audiometer—grades k-3 with referrals done in other grades
5. Inspection of throat for signs of infection—grades 1-4-7-9
6. Palpation of neck for detection of enlarged glands—grades 1-4-7-9
7. Inspection of skin for signs of infection or injury—grades 1-4-7-9
8. Examination of heart and breath sounds—grades 1-4-7-9
9. Evaluation of child's posture
10. Gross evaluation of child's general physical appearance.

The total number of these procedures are as follows:

Physical Exams:	1432
Vision Exams:	2345
Hearing Exams:	625

Parents are notified by phone or note if further evaluation is recommended. It must be understood that the family has the primary responsibility for the health of the child.

EDUCATION

Immunization Program:

The trivalent Oral Polio Vaccine was offered to all students in grades K-12, a total of 3100 students received the vaccine. This vaccine was supplied by the State at no charge.

Health rooms are maintained in Middle, Jr. High and High Schools—the function is to render first-aid and to provide a rest area for children who become ill during school until their parents are notified. The number of children who have used this service are as follows:

Middle School:	3500
Jr. High	2210
High School:	5750

Home tutoring is offered to students who are unable to attend school due to ill health until such time as they are able to return to the classroom. This is arranged by the health department upon request of the principals, guidance counselors, teachers and parents.

We hope that a dental program will become part of the services offered, however, due to the projected expense, it is only in the planning stage. There are many significant and important issues that remain to be explored. The staff of the school health service is willing to meet these challenges. It must be noted, however, any success depends on the cooperation of the family.

Respectfully submitted,

Jeanne A. Gauthier, R.N.

REPORT OF THE SCHOOL SOCIAL WORKER

This is my seventh year as a school social worker in Sanford under Title I - ESEA funds. My work continues to be chiefly concerned with the child, in grades Kindergarten through six, who is having some type of difficulty in his school adjustment. Regular visits are made in the nine elementary schools (includes St. Thomas). Most referrals are made by the principal or the teachers, who are aware and concerned about their pupils. The child could be one who is too often unhappy or has material needs, or is failing or under-achieving, or absent a great deal or perhaps over aggressive or withdrawn. No doubt my title could be a "Home

EDUCATION

Visitor," because that is where I spend much of my time. Of course, direct cooperation between home and school is preferred but for various reasons this often cannot be worked out, and also in some cases additional assistance is needed. Thus I work as a go-between—trying to work through the best possible answer for each child.

Community agencies and resources play a real part in answering the needs, and their excellent cooperation cannot be over-emphasized. The school personnel work together—not only the administrative staff, but all teachers, particularly the remedial reading staff and our new learning disabilities teacher. Mr. Frederick Brown, Jr., High School Guidance, does much testing and evaluating for us. The York County Counseling Service is most cooperative in further evaluating a child, when requested to do so by a parent. This fall, Marjorie Rizzo of the Bureau of Human Relations and their new Outreach Workers are proving to be of great value.

Since April there have been sufficient Title I funds to make it possible to have an assistant social worker. She has aided me in handling about 250 referrals from the schools. Some required only a few contacts while others could still receive almost constant attention. Lack of time does much in dictating what can often be accomplished. I believe that there are a number of children in our school system, who are better able to make the most of their abilities, as a result of the cooperative efforts of those involved in working with them.

Respectfully submitted,

Anna Lou Palmer
